

Is 002074 a good buy for gotion?

In addition, Huawei is the company's largest customer for its energy storage battery segment which was 15% of total revenue in 2022. 002074 is trading at a 18% premium. The global electric vehicle market moves into high gear on wider acceptance leading to stronger sales at Gotion.

Is 002074 a good stock to buy?

Stable Share Price: 002074 is not significantly more volatile than the rest of CN stocks over the past 3 months, typically moving +/- 4% a week. Volatility Over Time: 002074's weekly volatility (4%) has been stable over the past year.

Why is 002074 trading at a 18% premium?

002074 is trading at a 18% premium. The global electric vehicle market moves into high gear on wider acceptance leading to stronger sales at Gotion. Given battery producers' low pricing power, intensifying competition will significantly affect Gotion's profitability, resulting in volatility and uncertainty in the earnings forecast.

Guoxuan High-tech Co., Ltd. is specialized in the development, production and marketing of lithium batteries and energy transmission systems. The company offers lithium-ion batteries, engines and vehicle control systems, power storage batteries, high and low voltage switchgear, control devices, etc.

All smart plugs can turn your devices off and on, but only some can tell you how much power your devices are using. The TP-Link Kasa Plug Slim With Energy Monitoring generates energy reports ...
