

well I took off the sway bar today and started poking around the crud at the fitting on the return line (cooler to gear box) and got a bath when I poked a hole threw the rusted steel line, I removed the line at the cooler and simply ripped the line off at the fitting (wiggled it back and forth) Then I took a 3/8ths drive socket with a swivel and removed the fitting from the gear ...

Hello, I am in the middle of changing out the power steering system on my 2002 v8. I have the pump out, I have the oil filter adapter off (I am replacing the gasket), I have the ...

2002 Explorer XLT v8. July 11, 2018 ... Lucas sealed the leak in my power steering system about 11 years ago. Don't add too much at one time, and don't expect it to seal immediately. Add a drop, then drive for a week, then add a drop more. Keep doing this until the leak is sealed. The chemical causes rubber seals to swell so you'll want to do ...

Checking the power steering fluid level in your Explorer is relatively easy and should be done once a month or if you are experienced difficulty turning the wheel or steering your Explorer.

2002 explorer 4 6 power steering system

Greetings I've been leaking power steering fluid on my 4.6L V8. The leak appears to be coming from wherever the lines attach to the steering. Everything from the reservoir to the cooler is clean as well as the area around the pump. The leak is dripping down the middle of the frame, maybe a little more to the passenger side. ... 2002 Explorer ...
