

2017 honda accord hybrid power system problem

What are the most common Accord Hybrid problems?

On Car Complaints, a website that keeps track of owner feedback, poor fuel economy is the most common issue people have with the Accord Hybrid. This is not much of a surprise when it comes to the 2005 to 2007 Accord Hybrid because it uses the same V6 engine as the non-hybrid model.

Can you drive a hybrid accord with a 12 volt battery?

In a lot of cases, older Accord Hybrids can still be driven normally even when the hybrid battery goes. You might notice some errors and strange behavior from the hybrid IMA system, but the internal combustion engine should still work. The 12-volt battery might also have issues because it's usually charged by the hybrid system.

Does the Honda Accord Hybrid have a high-voltage battery?

Like all batteries, the Honda Accord Hybrid's high-voltage battery will eventually degrade over time. This is a common concern for those who own or are considering older Accord Hybrids -- such as the seventh and ninth generation models to be specific.

How long does a Honda Accord Hybrid battery last?

Nonetheless, on different Internet forums dedicated to the Honda Accord, most 2005 to 2007 Accord Hybrid owners manage to get around 10 to 15 years out of the hybrid (IMA) battery before it needs to be replaced. When the high voltage hybrid battery goes, you might experience symptoms like:

Do Accord hybrids get a lot of gas mileage?

One of the more common complaints with the ninth generation Accord Hybrid from 2014, 2015 and 2017 is that the gas mileage seems to drop a bit with each passing year. Here's how a few Accord Hybrid owners describe their issues: "Bought 2014 Honda Hybrid brand new.

Can ANC be turned off in a 7th gen Accord Hybrid?

In older 7th gen Accord Hybrids, the ANC system can be turned off, but this is not possible in newer models. If you have a newer Accord Hybrid with a defective ANC and you don't want to pay for a new unit, you can simply unplug the ANC from under the dash just behind the glove compartment. 5. Phantom Braking

Thanks ziyang. Yesterday Check engine light turned on. Dealer had to change the hybrid battery last time and now i am over 36,000 miles. Hybrid battery is covered for 80,000 miles, but going thorough this all is so frustrating.
