

Acciona solar power asp boulder city nv

What is Acciona Solar?

In-house technology by ACCIONA for the solar collectors. Nevada Solar One was the largest solar thermal plant installed in the world since 1991. It has 64 MW of power and generates about 136 GWh of clean energy annually, equivalent to the consumption of about 15,000 American households.

Where is Acciona Solar power plant located?

It is located in the Nevada desert and contributes to the electricity supply to Las Vegas, 40 kilometers north of the plant. Average annual production: 136 GWh, equivalent to the demand from around 15,000 homes. Energy customers: Nevada Power Company and Sierra Pacific Resources. In-house technology by ACCIONA for the solar collectors.

Why is Acciona a strategic priority?

ACCIONA considers the fight against climate change and its related effects to be a strategic priority.

Acciona Gets Federal Grant to Expand. February 18, 2010 - The Spanish company Acciona will be expanding its Boulder City, Nevada, parabolic trough solar thermal plant as the Department of Energy awarded it a \$2.9 million grant. The grant for Acciona comes in lieu of the tax credit the company would have gotten for expanding its plant.

In the United States, ACCIONA develops, owns and operates renewable energy and infrastructure projects.
