So if you want to start with a couple of 100-watt solar panels, this is a good way to begin your dry camping adventure. Because solar panels come standard on these travel trailers, they're great options for campers who don't have much experience with solar. Depending on the brand and wattage, solar panels generally range from \$200-400.

The Nova Series 12 Volt 225 Watt Walkable Solar Panel is built for medium sized to large scale van builds, expedition trucks, and RV's. Our EFTE coated semi flexible solar panel gives the most durability of any of its competitors, while maximizing the amount of useable roof space. Just build a support deck out of 80/20, and you are set.

This SolarHawk Rover Solar Panels is a 200W foldable solar panel that is ideally suited to off-road camping adventures due to the glass-free and busbar-free PV cell design. The solar panels are made with redundant PV cell connectivity, which allows them to withstand physical and thermal extremes (aka overlanding).
