

Airstream basecamp lithium battery upgrade

How do I upgrade my Airstream RV batteries?

Upgrade the Airstream RV batteries to a 200Ah battery bank (2 - 100Ah lithium batteries) at the dealership upon taking delivery.

How many batteries does airstream Power Plus have?

Airstream Power Plus ships with Victron solar controller and battery monitor, two AGM batteries, and respective solar panel (s). If customers choose to upgrade to lithium, the dealer-installed upgrade will replace two AGM batteries with two LiFePO4 lithium batteries and an upgraded power converter.

Which batteries should I use with my airstream?

High-performance deep cycle lithium-ion batteries are your go-to and we recommend using Battle Born Batteries with your Airstream. With this update, we've upgraded to a multi-stage auto-detecting power converter, making it seamless to drop-in different batteries (by chemistry) and doesn't require any physical changes for the power system to adjust.

Does airstream have a lithium battery upgrade kit?

Airstream offers a lithium battery upgrade kit (Airstream part number 513862, Battle Born battery model #BBGC2H). Depending on the model year and options, other items may need to be changed, like the converter and/or solar charger. This lithium battery has a Bulk/Absorption rating of 14.2 to 14.6 volts.

How many batteries does the airstream battery box fit?

The Airstream battery box can fit two 6-volt batteries. Older models fit two group 24 batteries, which is the size of the Battle Born batteries. The Airstream part number for the battery box is 916044.

Does airstream have a battery bank?

For the Classic and Pottery Barn Special Edition models, a 200Ah battery bank (2 - 100Ah lithium batteries) is still included from the Airstream factory. Still need help?

Flip up the cover on the side of the Basecamp to reveal a 110V outlet that is GFCI protected. Where is the Basecamp battery?
