

I have a 2020 AI 19 TB and am very disappointed by the House Battery capacity (2 80 AHR AGM) and 1000W Converter. It also appears there is some type of drain with Master Electric switch off. Any ideas? Feels like it needs a Lithium Upgrade and a new inverter? Has anyone upgraded the AI 19 with Lithium and larger Converter?

Over the years, Airstream Touring Coaches have included lead acid or glass mat batteries and have been the industry standard. We're now improving our offering to a set of two - 100 Ah Deep Cycle Lithium Batteries (LiFePO4) to simply enhance the customer experience from a battery charging and usage perspective.

Convection Microwave Oven (*Replaces Oven) | Upgrade and get the best of both worlds with a convection microwave. Bake, roast, and broil or switch to standard microwave mode. \$475 Twin Beds with AdaptaFlex Memory Foam Mattress | Twin beds open the aisle and include longer mattresses on each side for sleeping or lounging. \$0

Battle Born Lithium Batteries; Airstream Trailers Body Shop; Financing . Loan Calculator; Credit Application; ... 200 Amp Surge Current (30 seconds), and 189; second surge for higher loads. It's time to upgrade your heavy lead-acid batteries to LiFePO4 batteries and upgrade your lifestyle and ability to adventure! ... for each 100 Ah of your ...

Well after weeks of research and asking questions on this forum I am proceeding with my lithium battery and inverter/charger upgrade. After seriously considering Victron and GBS battery packages like ... There's is a positive wire that goes from the copper bar between the battery and disconnect switch to the original airstream positive bus bar ...

Phase II: Lithium batteries and charging in the van. This phase will upgrade the battery capacity of the van. We'll be able to park the van in the sun, even when the Airstream is parked in the shade, to allow the existing 200 watts of ...

With its massive Volta 12,000 Watt-hour battery and 3,200-Watt inverter, the E1 Package delivers AC power to outlets, appliances, microwave, cooktop and A/C at up to five times more battery power than the standard power system. ... Volta 12,000 Watt-hour lithium ... The E1 Package upgrade eliminates the need for propane by drawing diesel fuel ...

We had AM Solar in Springfield, OR, put solar on our 2021 GT 23FBT: 4 x Zamp ZS100 Obsidian solar panels, 2 100w Battleborn lithium in factory battery box, Victron Complete Charger & battery monitor, tow vehicle alternator charger ...

Airstream lithium battery upgrade

I'm converting my RV (Airstream Sport 16) to lithium batteries, and I have a question about replacing my RV converter with one that supports lithium batteries. My current converter and board is ... The unit I've purchased to add lithium battery support is a WFCO WF9855-LIS. For the AC connection, it comes with a power cord with a 3-prong ...

I used 4/0 cable to connect the batteries in the battery bank and then to connect the battery bank to the main fuse (400A T-Class), from the main fuse to the main disconnect switch, from the main disconnect switch to the positive busbar, from the positive busbar to the inverter fuse (100A ANL) which wasn't necessary right now but figured I ...

Is it essential for me to replace battery with Lithium Lifeline GPL-27T AGM? 11-09-2022, 12:49 PM #19: uncle_bob. Half a Rivet Short . 2017 30" Classic ... Options for interstate battery replacement? cstevecook: Airstream Trailer Forums: 7: 09-23-2017 01:07 PM: Batteries: 2013 Internation 19, Interstate SRM-24 both dead ...

2021 Caravel 16RB - BattleBorn GC2 install After our initial couple trips 13 months ago, we were very frustrated with the 80AH AGM batteries supplied with our "Solar Option". I decided to go with Battleborn Lithium LiFe Po4 (GC2), and these batteries "dropped in" to the outside battery box with no modifications needed other than trimming the tray under the ...

Airstream Power Plus ships with Victron solar controller and battery monitor, two AGM batteries, and respective solar panel(s). If customers choose to upgrade to lithium, the dealer-installed upgrade will replace two AGM batteries with two LiFePO4 lithium batteries and an upgraded power converter.

Not exactly your application, but this may help and will bump the thread. We have a 2007 16" which is different in that 1) the battery box is located on the A-frame in front of the propane tanks, and 2) it has a propane fridge instead of the power hungry all-electric which allowed us to have adequate storage with only a single 100Ah lithium battery (Battle Born). I ...

A new, optional upgrade for Airstream touring coaches combines an enhanced energy system with a single-fuel-source heating and hot water system. ... Featuring a high-capacity 12,000 Watt-hour lithium battery pack, a 3,200-watt pure sine inverter, two 30-amp converters, and a secondary 51-volt alternator, everything works in conjunction to ...

Learn why and how to switch to lithium batteries for your Airstream, with tips, costs, and challenges. See the video and photos of the DIY installation process and the results.

Lithium Battery Upgrade. I found this document to be very helpful for our 2021 25 FC FB. Airstream Lithium upgrade_.pdf 09-05-2023, 12:49 PM #18: Prettygood. 4 Rivet Member . 2019 22" Sport Carlsbad, California Join Date: Nov 2018. Posts: 407 Quote: Originally Posted by ...

Upgrade to 400w of Lithium. That involves getting a battery monitor, new converter, and perhaps a DC-DC converter to be able to charge from your tow vehicle. You'd still want the solar and generator above. Be sure the solar panels are lithium compatible. Best Fill the roof with solar (800w) plus all of the above.

Lithium battery charging rates without MPPT are much quicker than lead acid charging rates with MPPT. ... 2024 Airstream Interstate 19e AWD Previous: 2013 Airstream Interstate 3500 Ext Lounge ... That's the plan but I've got a couple projects ahead of the battery upgrade so it may be some time before I get going. I started the thread early ...

The change to Lithium is liberating. Not having to worry about driving wet cells below a 50% charge level relieves a lot of stress. If you can afford the upgrade, do it. The Battleborn cells have an internal battery management system that protects them from overuse and/or overcharge.

I've purchased the batteries & charge converter, and read up on the install including "Diary of a Lithium Battery Upgrade" by Rich Luhr, which aligns remarkably well with my configuration changes, and the Airstream Power Plus Lithium Battery Upgrade article. Rich identifies some surprises he encountered, including: 1) having to cut off ...

Airstream uses two different power converters across the travel trailer lineup. WFCO WF-98 55-LiS (integrated and deck mounted) Progressive Dynamics PD4045 L CSV (integrated only).; At the most basic level, a power converter takes 120 volt AC (alternating current) shore power and converts it to 12 volt DC (direct current) for battery charging and ...

Parts welded for battery box. A 3/4" bar stock was welded to the hinge side of the battery box to allow for a wide enough base to mount the battery box lid, and a 3/4" square tube was welded to the latch side of the box to allow the battery box lid latch to close tightly down on the extender ring.

Dave, I converted to lithium on my 2019 22" Sport. The OEM WFCO converter/charger I had did not support

Airstream lithium battery upgrade

lithium charging, but WFCO offers a replacement main board assembly that is lithium-compatible. It was an easy switch. The replacement board I needed was WFCO 8950L2-MBA

1) Airstream is pretty much the last one to the party as it relates to Lithium batteries. While fairly new technology, other manufacturers have had this option for some time. 2) It is clear that rather than a "plug and play" system, ...
