

Alpha backup power

What is an alpha cableups?

Alpha has provided specialized uninterruptible power supplies(UPS) for more than 40 years. With impressive backup power capabilities,integrated generators,dual power grid switching and enhanced battery thermal management,an Alpha CableUPS ensures improvement in the overall efficiency and reliability of a broadband network.

What makes Alpha a good UPS battery?

Alpha's UPS batteries are good because they use the latest AGM (Absorbed Glass Mat) technology,which lowers internal resistance for superior high-rate,short-term discharges. This delivers critical power when needed. With a 10-year design life,they continue to deliver reliable standby power when conventional standby batteries might already have failed.

What is an Alpha UPS system?

Alpha UPS systems,from Alpha,an EnerSys Company,are designed to meet your power requirements,with models for traditional indoor applications and more rugged and outdoor applications. Alpha offers a complete line of AC and DC powering solutions.

Why should you choose Alpha's uninterruptible power supplies (UPS)?

Alpha's Uninterruptible Power Supplies (UPS) have endured as the world leading cable broadband UPS products for over 40 years. Designed for the worst outdoor conditions imaginable,our reputation for performance and endurance speaks for itself.

What is Alpha power?

Alpha,an EnerSys Company,offers a complete line of AC and DC powering solutions to meet your power requirements. Alpha systems are custom engineered to backup and protect sensitive,mission-critical electronic equipment.

What is the difference between Alpha FXM & Alpha Micro ups?

The Alpha Micro UPS Series provides the same functionality as the Alpha FXM Series for lower power applications. It comes in a single,easy to install cabinet. Optional add-on battery cabinets support applications where longer backup times are required. The system is available in either North American (120Vac/60Hz) or International (230Vac/50Hz) variants.

Alpha Technologies provides the Cable TV/Broadband, Industrial and Renewable Energy industries with the most reliable, technologically advanced and cost-effective powering solutions available. Alpha offers innovative powering solutions that are designed for the future; built to support expansion and provide unlimited opportunity. Widely used in cable television, ...

Alpha backup power

Alpha Technologies manufactures many different power products including Alpha UPS systems (standby and non-standby), TVSS, batteries, enclosures, and accessories. Alpha Industrial Power is a division of Alpha Technologies and supplies ...

Alpha Powers the In-Building Public Safety Radio System. Alpha's complete suite of expertise in reliable power, enclosure design, and monitoring come together in our backup power solutions for Public Safety Communications equipment. Whether it is a simple repeater or a large in building DAS system, Alpha has the right solution for your ...

With 40-years of outdoor power equipment design, Alpha's expertise in power electronics, enclosure design, and monitoring, come together to ensure reliable backup power. Alpha Services. Engineering & Installation. We work to combine your small, medium, and large-scale projects with the installation resources for complete design, construction ...

Alpha has provided specialized uninterruptible power supplies (UPS) for more than 40 years. With impressive backup power capabilities, integrated generators, dual power grid switching and enhanced battery thermal management, an Alpha CableUPS ensures improvement in the overall efficiency and reliability of a broadband network.

The Alpha Micro 350 is designed to perform in the most extreme demanding environments and ensure equipment in security ... Products of the Micro Series are rugged compact all-in-one UPS solutions used worldwide where clean backup power is needed. Designed to perform in the most extreme demanding environments, Alpha Micro units ensure equipment ...

The Alpha Micro Series provides constant, reliable backup power for Access Control, Security, Public Utility and Telecommunications applications in a compact all-in-one enclosure. The Alpha Micro UPS Series provides the same functionality as the Alpha FXM Series, for lower power applications in a single, easy to install cabinet.

The Alpha Micro 100 is a reliable outdoor rated uninterruptible power supply (UPS) or backup power solution that supports loads up to 100W. The Micro 100, by Alpha, an EnerSys company, is protected by an outdoor rated (NEMA 3R) enclosure designed for ...

Designed to provide reliable power for days of adventure and outdoor activities; 2 Different Ways to Recharge: Supports USB and solar charging. You can charge it using a wall outlet for everyday use and rely on solar charging as an emergency backup solution. Stay powered wherever you go with this versatile and reliable power bank.

Description . The AlphaCap provides short duration backup power for 48Vdc powered remote loads used in xDSL and FTTx equipment. Typical applications would be holding up remote equipment deployed using remote/line powering solutions, which are susceptible to brief outages (due to transients and GFI resets), as

Alpha backup power

well as local powered remote systems deployed with ...

The Alpha PS41-2730-CXRF is a charger and battery backup system ideal for sites with BDA systems installed to improve emergency radio communication per UL 2524. The Alpha PS41-2730-CXRF enclosure is integrated with a Cordex HP 48 V-1.2 kW rectifier shelf resulting in a fully featured 48 Vdc front access power system in a compact form factor.

The Alpha PS27-2220-PSU is an integrated, fully featured power system in a compact form factor. The Alpha PS27-2220-PSU enclosure is integrated with either the Cordex 24V-400W or 48V-650W PSU. This enclosure is designed to protect its internal backup power system in accordance with NFPA 1221 and UL 2524 standard requirements.

The next generation in battery backup systems brings a refreshed look, increased processor horsepower, advanced security and configurability to the proven FXM outdoor family. ... With over 4 decades of industry leadership in POWER, Alpha has established itself as the preeminent total power solutions provider and one stop source for DC, AC, and ...

Alpha Digital Portable Power Station 155Wh/42000mAh, Rechargeable Emergency Backup Lithium Battery with 110V/100W AC Outlet, 12V DC Output, USB QC3.0 & Type C, LED Flashlight ... The portable power station with a compact handle design is not only for emergency backup power at home, but also for camping or wherever you need power when you are on ...

Capacity and Power: When choosing a system, consider your home's current capacity and power to determine the appropriate battery backup system you will need. Choosing a system with inadequate ...

The Volt is a high performance battery back-up sump pump system with more pumping power than any other system in its class. The Volt has an extended runtime, it comes equipped with with a reliable solid state switch and optional text alerts. ... BETTER. The Alpha Battery Backup Sump Pump System protects your basement in ways that others system ...

Orlando, Florida. May 21, 2019 - Alpha, an EnerSys company, has joined the Safer Buildings Coalition (), demonstrating its commitment to help develop backup power standards that enhance Public Safety Distributed Antenna Systems.. The Safer Buildings Coalition is an independent, non-profit organization focused on advancing policies, ideas and ...

From simple repeaters to large DAS systems, reliable backup power is mandatory to keep the networks online. EnerSys offers a variety of backup power solutions designed to operate even in adverse conditions. ... Certified power systems with the Alpha PSU48-650 or PSU24-400 and strategically selected batteries, give you robust power that can be ...

The Alpha SE48-2216 Outdoor Enclosure is designed to protect traffic industry battery backup power system

Alpha backup power

components from harsh outdoor elements. The rugged enclosure is made of 0.125" aluminum and designed to easily accommodate an Alpha uninterruptible power supply (UPS) module, Alpha transfer switches, and up to four AlphaCell(TM) 195 GXL ...

Alpha's outdoor power backup systems ensure that the parking pay machines at Las Vegas International Airport (Terminal 3) would stay up and running, and collecting revenue during a power outage. In addition, our backup power products ensure that the parking garage entrance and exit gates operated properly during outages. The utilization of ...
