

Alpha dc power systems

Does Alpha offer DC power solutions?

Alpha offers fully integrated DC power solutions. They have decades of experience and the flexibility to provide options for standardized systems and custom DC system integration, making them a great choice for a wide range of power needs and various site installation requirements.

What makes alpha power systems different?

Alpha's leading-edge, high efficiency power conversion technology and Cordex controllers are the essential building blocks of our DC power solutions. But our power systems are further distinguished by a variety of distribution options and craftfriendly cable management that enable them to serve a broad variety of applications.

What types of systems does alpha offer?

For medium to large system applications, Alpha offers a complete line of standard AC and DC system solutions designed to maximize space and cost savings. System options include various relay rack structures, custom distribution configurations, multiple voltage output designs and front accessibility.

DC to AC Inverters. Alpha Technologies offers a full line of modular inverter systems providing a new level of scalability, maintainability, compactness, reliability and performance. Alpha's scalable DC to AC inverter is recognized as the industry standard for critical AC power by many of the world's leading communications companies.

Contact us | Should you have any queries, please feel free to contact us at Alpha Power Systems + 61 (2) 9602 8331 - admin@alphapower The Smart Choice +61 (2) 9602 8331 | sales@alphapower ; admin@alphapower

The E3 can be easily integrated into customer-provided relay racks or enclosures, or can be ordered factory installed into various Alpha relay rack configurations, including systems with pre-wired battery trays. Integrated -48V, 400A power system with front access distribution. Industry leading power system density

Alpha's DC power systems include rack-mount shelves for installation in cabinets and fully integrated rack solutions for powering a complete shelter. Our high density rectifiers enable more room for revenue-generating radio equipment in cabinets. In addition to 48VDC solutions, we also offer DCDC converters to simplify the transition from older ...

Description. The Cordex CXPS-C power system provides high capacity DC power for large communications applications. This system combines the capabilities of installation friendly distribution, advanced microprocessor based supervision, and modular rectifiers in a seamless integrated package.

Alpha dc power systems

Additionally, the Media System may be seamlessly integrated with an Alpha power plant using the unified Cordex controller to manage and control the Media system's AC power modules in addition to DC power modules and peripherals.

Alpha Power Systems, has the expertise to design, build and supply a range of DC systems in DC 12V, 24V 48V, 110V and 220V for communications and utilities. With power output upwards of 250W, we can provide powering solutions for a wide range of ...

Alpha is the leading Total Power Solutions provider for AC, DC and Renewable powering solutions for critical communications applications. ... Traffic, Broadband, Renewable Energy, and Industrial markets. Alpha's systems power Central Offices and Switching Centers, Small Cells and DAS, wireline broadband networks, traffic intersections, and ...

The Vertiv Network Power line of DC power systems, formerly Emerson Network Power, demonstrates unparalleled reliability and industry-leading efficiency ratings at -48 and +24 VDC. Vertiv rectifiers - the heart of the power system - possess some of the highest power densities and smallest footprints in the business.

Alpha offers custom power systems, high density rectifiers, DC to DC converters, distribution centers, network ready supervisory modules and sophisticated power enclosures, supported by comprehensive warranties and outstanding worldwide service and support.

Telecom DC Power (Duration: 1 Day) P/N: 0700020-001 Alpha Technologies offers a comprehensive DC Power Training course for Telecommunications professionals. This intensive, course covers concepts, design, application, maintenance and operation of DC power systems/components, and includes classroom instruction as well as hands-on training.

DC Power Systems and DC Power Supplies | Alpha DC Power | Alpha CXPS-E3 The Alpha CXPS-E3 400A Power System offers high-density rectifiers, a front access distribution center and the advanced CXC HP controller and is the ideal solution for small to medium-sized 48Vdc applications, providing up to 400 Amps of output current.

Contact Spang for more information on custom DC Power Systems. Historical experience, application knowledge, and a strong technology focus have elevated Spang to consistently being a global leader in the supply of custom DC power systems. Other applications for Spang DC power systems include:

The Alpha Inverter 2000, by Alpha Technologies, an EnerSys Company, is a standalone DC to AC inverter system for Telecom power applications. The Inverter 2000 features improved efficiency, better over-load performance and a compact design, and is the inverter of choice for a variety of telecom network applications.

Alpha 48Vdc Cordex 650W Modular Rectifier Shelf System is available to fit various 48Vdc application requirements. The Cordex series, by Alpha, an EnerSys company, includes a complete range of modular 650W

Alpha dc power systems

rectifier shelf systems designed for ...

DESCRIPTION. Alpha's E3 uses high-density rectifiers, a front access distribution center and the advanced CXC HP controller. The E3 is the ideal solution for small to medium-sized 48Vdc applications, providing up to 400 Amps of output current.

Alpha 48Vdc Cordex 1kW Shelf System, a modular, rectifier designed for communications applications. The Cordex 1kW modular systems, by Alpha, an EnerSys company, range from a 6kW bulk power 19" shelf to a 4kW fully integrated 23" shelf power system with CXCM plug-in controller and distribution module.

Alpha's DC power systems are ideal for powering a remote network access system like a DSLAM or fixed wireless access node. These DC plants are also the source of power for our Remote Line Power (RLP) systems. A low profile 48VDC system based on 1.2kW Cordex's rectifiers supply up to 100A of current. For larger applications, the rack-mount CXPS ...

Alpha's DC power systems range from multi-bay 10,000A systems for large switching offices to 400A rack-mount shelf systems that power small remote offices. High-efficiency Cordex's rectifiers and the CXC HP controller are essential building blocks of our DC power solutions. Our power systems are further distinguished by a variety of ...

The CXPS-HX 48-2500 Power System is a complete -48Vdc power plant that combines high efficiency rectifiers and flexible distribution options packaged in a single 7-foot box frame. It can be deployed in a distributed architecture requiring higher capacity distribution positions as well as in a centralized framework.

The INVERTER 2000 is a standalone DC~AC inverter system for Telecom power applications. ... Alpha INVERTER 2000. Alpine Power Systems" experienced technical support & sales team is here to assist your needs: Request a Quote Email Us 877.993.8855

The Alpha 48Vdc CXPS-HX, 2500A-5000A, high-capacity distributed power system provides DC power for large communication network applications. This system combines the capabilities of tiered distribution, advanced microprocessor based ...

The Alpha 24/48Vdc Cordex PSU is an integrated, fully-featured DC power system in a compact form factor. The 24/48Vdc Cordex PSU is web enabled, 24V/400W or 48V/650WDIN power supply with rail/wall mount designed to provide power to critical loads.

The Cordex CXPS-C power system provides high capacity DC power for large communications applications. This system combines the capabilities of installation friendly distribution, advanced microprocessor based supervision, and modular rectifiers in a seamless integrated package. Shunt mux option provides single point monitoring of branch distribution with data logging ...
