

Present in Malaysia for over 20 years, Alstom takes pride in creating liveable space through the delivery of smart and efficient mobility solutions covering urban and airport systems to signalling. The Group's presence began on the Kuala Lumpur Sri Petaling and Ampang Lines - the country's first turnkey project in 1992.

The Ashalim Plot B power facility is part of the Ashalim solar complex, which includes two solar-thermal projects (Ashalim Plot B and one other) and one photovoltaic projects. In total, these facilities at Ashalim are expected to produce nearly 300 MW of power, about 2% of Israel's electricity production capacity.

Alstom Power comptait deux principaux secteurs : Alstom Thermal Power, sp&#233;cialis&#233; dans la construction de centrales &#233;lectriques thermiques et syst&#232;mes annexes, ... La nouvelle entit&#233;, d&#233;tenue &#224; 100 % par EDF, et comprenant ainsi les anciennes filiales Alstom Power Systems et Alstom Power Service, se nomme Arabelle Solutions [15], [1]

Andreas Lusch, Senior Vice President and Head of Thermal Systems at Alstom Power, declared: ALSTOM Carbon Capture GmbH will be a great asset to the Alstom group. Alstom is committed to leading the industrial fight against climate change by providing its customers with smart CO2 capture solutions, which complements our broad offering of ...

Alstom Grid and Korea Electric Power Corporation (KEPCO), one of the largest electric utilities in the world, have announced the creation of KEPCO Alstom Power Electronics Systems (KAPES). The joint venture will focus on delivering high voltage direct current (HVDC) projects in Korea.

These systems manage train safety and increase train frequency. R& D programs of the 2 nd centre of excellence are dedicated to new generation traction systems and to systems that reduce the energy consumption of Alstom solutions. The site in Bruges is an important assembly and testing site of trains as the M7 regional trains for SNCB.

Alstom T& D India has been awarded a contract by Bajaj Infrastructure Development Company, to supply e-BoP (Electrical Balance of Plant) Package for their upcoming 3 x 660 MW Super Thermal Power Project (TPP) in Lalitpur, Uttar Pradesh. The contract is worth approximately 2000 MINR (28.5 million).

Alstom's Power business provides equipment and services for integrated power plant solutions for a variety of energy sources, including steam, hydro, coal, gas, nuclear ...

A contract worth around 410 million The consortium formed by Alstom Thermal Power and Duro Felguera has signed a turnkey contract with Carrington Power Limited, owned subsidiary of the Irish company ESB, to construct a gas-fired power generation plant in Carrington, the UK.

At its Birr test facility, Alstom has the opportunity to be able to perform tests on a full working power plant which can dispatch more than 260 MWe to the Swiss grid. The GT26 there has 2000 measuring points over and above the normal complement of instrumentation that would be found on a typical such turbine.

We strive to provide them with the most efficient and digital mobility systems, while further improving the environmental friendliness of our solutions. ... Beverly Ho (Alstom Singapore) T&#233;l. +60 3 2055 6129 - beverly.ho@power.alstom Investor relations Emmanuelle Ch&#226;telain, Juliette Langlais - T&#233;l : + 33 1 41 49 37 38 / 21 36 emmanuelle ...

Alstom today unveiled its Advanced Circulating Fluidised Bed boiler at Asia's premier industry expo, Power-Gen Asia in Thailand. Utilising the efficiency of ultra-supercritical (USC) steam conditions and the flexibility of circulating fluidised beds (CFB), the Advanced CFB boiler offers 660 MW or more in output, based on the type of fuel.

Alstom has supplied key equipment for more than 50 % of Turkey's total of 53 GW installed power generation capacity. The thermal power plant projects completed by Alstom Power in Turkey include the turnkey 1200 MW Hamitabat combined cycle power plant, the turnkey 320 MW &#199;an lignite-fired power plant, as well as the steam turbines and generators ...

Alstom has been awarded a contract of around EUR10 million, by Eren Enerji Endustrisi A.S. to provide the substation connecting the Zetes-3 thermal power plant (2x700 MW) to the Turkish transmission network.

Termopaipa Unit 1 power plant was commissioned in 1963 with original turbines and generators from Alstom. The Electrostatic precipitators of Units 1 and 3 were recently upgraded by Alstom to comply with the more stringent environmental regulations in Colombia. About Alstom . Alstom is a global leader in the world of power generation, power ...

Alstom manages the widest range of solutions in the market - from high-speed trains to metros and tramways - and associated maintenance, modernisation, infrastructure and signalling solutions. Alstom is a world leader in integrated railway systems. It recorded sales of EUR6.2 billion and booked EUR10 billion of orders in the 2014/15 fiscal ...

Los Humeros II is a landmark project for Alstom, says the company. "Los Humeros II geothermal project represents the return of Alstom to the geothermal market since 2000 when four units of 25 MW were built in Los Azufres, Mexico," said Guy Chardon, Senior Vice President Alstom Power Thermal Products.

Alstom and RusHydro, Russia's largest hydropower generation company, are extending their partnership to thermal power generation. The signed agreement covers the modernisation and repowering of power equipment installed on the generation assets of RAO Energy System of East, a holding company owned by RusHydro.

OverviewHistoryTransportFormer businessesFinancial informationExternal linksAlstom was founded in 1928 from the merger of French heavy engineering subsidiary of the Thomson-Houston Electric Company - the Compagnie Fran#231;aise Thomson Houston, CFTH - and the Soci#233;t#233; Alsacienne de Constructions M#233;caniques. In 1932, Alstom expanded into transportation by acquiring the French: Constructions #201;lectriques de France, Tarbes; a manufact...

The upgrade will result in a 75% particulate emissions reduction in the industrial power plant. Alstom has recently been awarded a contract, from Baoshan Iron & Steel Co. Ltd. (BaoSteel) in Shanghai, to upgrade the Electrostatic Precipitators (ESP) of units 1 and 2 of the captive power plant.

Alstom today announced a new contract to deliver an emission control system for Unit 4 of Minnesota Power's Boswell Energy center. Once installed alongside the 585 megawatt coal-fired unit, Alstom's NID(TM) semi-dry flue gas desulphurization system will reduce the plant's environmental footprint by cutting mercury emissions by 90% and significantly curbing ...

Commenting on reaching this milestone, Andreas Lusch, Senior Vice President, Thermal Systems, Alstom Power said, Alstoms plant integration capability combined with excellent component performance and such accumulated experience will ensure competitive plants continue to be built by Alstom for the world market. Editors note

Alstom Bharat Forge Power Ltd. (ABFPL), the joint venture company between Alstom and Bharat Forge, has secured in India an order worth over 350 million (Rs. 2,251 crores). ABFPL will supply three units of 660 MW supercritical coal turbine islands to ...

Philippe Joubert, President of Alstom Power Systems, stated: Based on the excellent performance of our technology at Enfield, we are delighted that E.ON has chosen Alstom for this contract. Because the efficiency of the combined heat power plant is over 70%, we minimise the impact on the environment and consequently reduce CO2 emissions.

It reconfirms EVNs trust in Alstom as a reliable long-term business partner, says Hans-Peter Meer, Senior Vice President, Alstom Power Thermal Services. Through the LTSA, EVNs Phu My power plant will benefit from the sustainable high efficiency of Alstoms combined-cycle technology which delivers lower CO2 emissions, as well as feedback from the ...
