Altex has over two dozen professional engineers and technologists across departments and throughout the organization. We have been designing, building, and servicing shell & tube heat exchangers for over 20 years. Scope of Supply: Helixchangers®; (helical baffle) licensee;

Altex Industries has been designing, building, and servicing shell & tube heat exchangers for over 20-years. We maintain a large stock of common tubes, plate, and even forgings to ensure quick turnaround on rush and emergency bundle replacement. We are the only exchanger company in Canada capable of bending and heat-treating U-tubes in-house.

Altex's latest innovation is Newton High-Speed Lite-Lift, the most intuitive and elegant manual solution on the market, with no visible cords or chains. Discover Newton. Shades that reflect your personality. Use IMAGIN X shade printing service to add a personal touch to your rooms. IMAGIN X by Altex: the extension of your imagination.

Altex Industries has flexible rental options for our heat exchangers, with both weekly and monthly rates available. We offer discounts for multiple unit rentals and extended rental periods, ensuring cost-effective solutions for your specific needs. We can even sell you a rental exchanger!

Yes, Altex routinely assists our clients with troubleshooting heat exchangers that are under performing and/or experiencing vibration, fouling, and other issues. In general, we need thermal/process data and detailed drawings. It is important that the actual process operating conditions are known, especially if there are upset cases or ...

Altex designs and fabricates Waste Heat Boilers to ASME VIII-Div.1 and ASME I Codes. FEA can be used in some cases for non-UHX tubesheet design, complicated geometries, and extreme temperature gradients. Above 2-pass Waste Heat Boiler w/ integral Steam Drum is 14.75-ft wide x 35.5-ft long x 22.1-ft high and weighs 164-tons empty.
