

American solar panels

American Solar scams and other types of solar panel fraud have had a negative impact on solar businesses, their customers, and even the industry itself. Many people who have received solar-based scam calls are unaware that the people behind them are really scammers who don't actually represent the company they claim to.

First Solar manufactures thin-film solar panels. Thin film is a budget-friendly second-generation panel that is known for its low profile (up to 350 times thinner than crystalline panels) and pliability. First Solar boasts a remarkably efficient manufacturing process that converts a sheet of glass into a fully-functional solar panel in 4.5 ...
