

**Anime-Related Anime Powers** This program generates those crazy, multi-word, occasionally incoherent attacks our beloved anime characters yell out. **Questionable Anime Powers** Hey, they can't all be serious, right?

**Humorous Anime Power Generator.** Anime provides us with many memorable cases of characters yelling out long strings of words before smiting their enemies. Of course something that beloved deserves a bit of parody . . . My future Sanctum plans are here. Grab the data archives here!

**Hair, power, costumes, and more, randomized for your convenience! Super Ninja Generator** There are stealthy ninjas - then there's over-the top super-powered super-ninjas in anime, manga, and more. When you need a new ninja with powers and superhuman abilities, come here!

**Magic Power** Creates magical abilities similar to those seen in anime and video games. **Magical Styles** Create unique and interesting styles and forms of magic for characters or even entire settings. **Spells** Random spell names, ranging from Simple (standard CRPG/RPG) to complex and poetic (for writing or more elaborate ideas).

**General Character Generator** Produces highly detailed randomly generated character descriptions in both anime and non-anime style. **Quick Character Generator** Creates quick character profiles in a variety of settings, from anime to fantasy.
