

SAN FRANCISCO, CALIFORNIA, UNITED STATES, May 17, 2023 -- Arka Energy, a global energy technology company and the world's leading supplier of lifestyle solar solutions, today announced the...

Our company recognized a strong demand for autonomous lockers with a touch screen based on the choices made by end consumers. For this reason, since the fall of 2022, our R& D team led by Mr. Cezar Frîncu - CTO of ARKA, has developed the solar panel battery locker, reaching its fifth iteration this year.

Co-Created With Solar Installers. We developed ARKA 360 for solar installers based on hundreds of calls and interviews with installers. As a result, ARKA 360 CRM understands that your contacts can have multiple projects and that sales pipelines are different from operations pipelines and support pipelines.

ARKA 360 is a modern, exceptional solar design platform that stands out among others due to its specialized tools and features tailored for complex solar energy projects. In today's business landscape, where efficiency and productivity are paramount, ARKA 360 offers professionals and companies the necessary tools to excel in solar design.

Solar companies nationwide are embracing ARKA 360 as the game-changing solution for their solar design and business operating needs. Solar Installers in the United States can subscribe to ARKA 360 platform starting today, with a promotional offer of a 3-month free extension ending on August 31, 2023. The new ARKA 360 platform will be displayed ...
