

Arlo solar panel charging indicator

Should I charge my Arlo camera before using the solar panel?

: Charge your Arlo camera before using it with the Arlo Solar Panel. The Arlo Solar Panel is meant to keep your camera charged, not to charge it from low to full battery. Ensure your Arlo camera is compatible with the Arlo Solar Panel. Check the solar icons in the Arlo Secure App to determine the charging state.

Why is my Arlo camera not charging?

Ensure your Arlo camera is compatible with the Arlo Solar Panel. Check the solar icons in the Arlo Secure App to determine the charging state. : It is possible that these icons will only display for a few minutes and then revert to gray. : If the battery is too cold or too hot, it will not charge. Unplug the Arlo Solar Panel cable from your camera.

How does the Arlo solar panel work?

The Arlo Solar Panel is designed to provide trickle charging to keep your camera battery charged, not to charge your camera battery from low to full. Reduce your camera usage for a day or two and note your camera battery level.

How do I know if my Arlo solar panel is not charging?

There are a few signs that you can look for to know if your Arlo solar panel is not charging. The first sign is that the battery indicator light will be red or flashing. If the light is red, it means that the battery is low and needs to be charged.

How do I charge my Arlo camera?

Ensure the Arlo camera battery is fully inserted and that you are charging it with the Arlo Solar Panel. The Arlo Solar Panel charges the battery, but it cannot power the camera if the battery is not installed. Make sure your camera battery is fully charged when you connect the Arlo Solar Panel to your camera.

Can Arlo solar panel charge an empty battery?

After unboxing the camera, remove the battery and check that all the accessories are installed and assembled properly. Fully charged for the first time is recommended because Arlo solar panel can not charge an empty battery. This issue is caused by many reasons, including the charging and discharging capacity of the battery.

To use your camera while it charges, you must use an outdoor magnetic charging cable or Arlo Solar Panel (both sold separately). Outdoor Magnetic Charging. The Outdoor Magnetic Charging Cable is sold separately.

...
