

Backup power for accutech gauges

How accurate is the Accutech GP10 wireless pressure sensor?

Highly accurate gauge pressure sensor The Accutech GP10 wireless gauge pressure field unit provides pressure data in a variety of ranges from 250 to 5000 PSIG. With its integrated and highly sensitive sensor design, the product may be configured to sample and transmit updates between once per second and once per minute.

What is Accutech Wireless Instrumentation?

Field-Ready, Field-Proven Wireless Instrumentation That Works Accutech wireless instrumentation eliminates complex, hardwired installations and makes it easy to deploy an

What is Accutech gp10?

Accutech GP10 Accutech field units eliminate costly hard wired installations by providing an easy-to-install and secure wireless link between field-based process instrumentation and control infrastructure. They are intended for use in extreme environments where typical wired communication is not feasible or economical.

How do Accutech field units work?

All Accutech field units automatically report field data to a centralized Accutech base radio over distances of up to 5000ft (1524m).

What is the Accutech series?

The Accutech Series is comprised of self-contained, self-powered field units providing process data to a centralized base radio through a 900MHz spread-spectrum, frequency hopping wireless connection.

How many wireless instruments can a Accutech instrument have?

Instruments can be created and polled by a single base radio. With the capability to scale up to 16 wireless networks, Accutech's wireless instrument plans. Up to Ten Years of Operation on Internal Battery Power Accutech instruments feature patented wireless communication technology and optimized power usage to offer up to

Accutech instruments feature patented wireless communication technology and optimized power usage to offer up to 10 years of self-sufficient operation on the internal battery.

Accutech Power Sdn. Bhd. is located at 9, Taman, Jalan SC 8, Pusat Perindustrian Sungai Chua, 43000 Kajang, Selangor, Malaysia. Q3. What days are Accutech Power Sdn. Bhd. open? Accutech Power Sdn. Bhd. is open Mon-Fri 8:30 AM-6 PM; closed Sat-Sun. Q4.

Longacre's innovative Accutech SMi gauge is a 2-5/8" Stepper-Motor-style gauge that uses a small electronic motor that turns a fraction of a rotation to drive the pointer. Much more precise than traditional mechanical gauges, many pro-racing teams are switching to Stepper-Motor gauges to improve accuracy. The gauges include ultra bright LED ...

If you're looking for the fastest response and highest accuracy, these ultra-lightweight Longacre AccuTech SMi stepper gauges are the perfect fit. They use a small electric motor to drive the pointer making them more precise than the common "air core" instruments whose accuracy can be affected by windings. This is one of our most popular ...
