

Backup power generator holland

Thanks to the transfer switch technology, your backup generator can start supplying power to your home seconds after an outage begins. Generator restores power Whether you're home or not, your Generac home standby system kicks into action, and continues to power your home until utility power returns. ...

Fuel is stored in an underground tank or supplied by your home's natural gas. Standby generators are larger than portable generators (7,500 watts to 48,000 watts or more), and they're more expensive, running anywhere from \$5,000 to more than \$25,000. Standby generators need to be professionally installed by a licensed electrician.
