

Bat caddy x4r lithium battery

The BATCADDY X8R(TM) Remote Control electric golf push-cart. With all metal Euro-style Wave Frame design, no-lock easy fold adjustable handle, true free-wheel option, & SLA or Lithium Battery, the BATCADDY X8R is for the golfer who wants all the options without having to ...

How can I determine if I need to replace my Bat-Caddy battery? As the battery is used and ages the maximum charge will decrease. If your battery is slowing down at the end of a round, or not even making 18 holes it is time to replace the battery.

Specifically, you can now replace a 12V 35Ah SLA battery on a remote controlled caddy with two motors usually running 27 holes per charge with a total lifetime of about 150 charges, with a 12V 20/21Ah Lithium battery running 36 holes per charge and a total lifetime of about 500 charges.

The Bat-Caddy X4R(TM) is one of the most innovative and unique remote controlled caddies and probably the best selling remote controlled motorized caddy in North America. In its 9th model year it features an amazingly lightweight high tech aluminum frame weighing in ...

I didn't have any problem with the quality of the X8R and it was actually better than some of the more expensive units. Some of the other carts used a lot of plastic (which tends to break), but it was nice to see Bat-Caddy use as much metal as possible (and keep it fairly light). It was lighter than I expected and it also was compact when folded which made it super easy to ...

The Bat-Caddy X4R is available with a Standard SLA Battery or Advanced SL or XL Lithium battery in multiple colors. Bat-Caddy X4R Model Features at a Glance. High Tech Aluminum Alloy Frame and Stainless Steel Components: Extreme light weight, ... Optional lithium battery weighs only 4-7 Lbs, is a third of the size of SLA batteries and lasts 4 ...
