

Best backup power for home

Should you invest in a backup power generator?

Given the uptick in extreme weather, that may mean investing in a backup power generator to keep your home running in the event of disaster or an extended power outage. The aging electrical grid is another factor, notes Aaron Jagdfeld, CEO of Generac, which developed the first power generators for home use back in 1959.

What is a good battery backup system?

Tesla Powerwall+ A well-rounded and expandable home battery backup EcoFlow DPU + Smart Home Panel 2 A portable battery that can function as your whole-home backup solution Anker Solix X1 A home backup system with a modular installation Generac PWRcell A home battery backup system that's compatible with third-party solar panels Enphase IQ

Do you need more backup power?

Homeowners with very large houses and/or a lot of energy-intensive equipment may find they need to invest in more backup power. Rachel Rothman, chief engineer at the Good Housekeeping Institute, has this model from Kohler installed at her home in New York, where she runs a lot of product tests.

Are portable generators better than battery backups?

With that said, portable generators can be a good option in some cases. Unlike battery backups, you only need a single generator to restore power in an outage, which brings down the upfront costs. Plus, standby generators can last longer than battery backup systems in a single session.

What is a home battery backup system?

Home battery backup systems, like the Tesla Powerwall or the LGES 10H and 16H Prime, store energy, which you can use to power your house during an outage. Batteries get that electricity from your home solar system or the electrical grid. As a result, they're much better for the environment than fuel-powered generators.

Why do you need a backup power system?

It's never fun to have your power suddenly go out when you're in the middle of watching TV or working from home. Whether you're facing severe weather, an overloaded power grid or another unexpected provider outage, having backup power systems in your home can help you carry on with your day or night.

Equipping your home with permanent backup power requires a solution as unique as your home and the way you live in it. Work with a local Authorized Generac Dealer to get a detailed estimate for a solution that's configured specifically for you.
