

Best bluetooth lithium battery monitor

What is the best battery monitor?

After testing 4 of the best RV and solar battery monitors for over 2 months, I think the Victron SmartShunt is the best battery monitor for most people.

What is a Bluetooth battery monitor?

With a built-in Bluetooth battery monitor, you can turn your smartphone into a central database for all your battery needs. Both our Ionic Lithium Deep Cycle Batteries and our Ionic Lithium Starter Batteries have corresponding apps built specifically to support them. These are called the "IonicBlueBatteries" app and the "IonicRedBatteries" app.

Does bmv-712 work with lithium batteries?

The BMV-712 is a great battery monitor that works with 12-48V lithium and lead acid batteries. It's highly customizable and accurate and it has some nice extra features. But mainly what you're paying for is the rare combo of a battery monitor that has both a screen and Bluetooth monitoring. Bluetooth?

What are the pros and cons of a battery monitor?

Pros: Works with 12-48V lithium and lead acid batteries, easiest to install, highly customizable, has Bluetooth
Cons: No screen, one of the pricier options, mediocre Bluetooth range, 'alarm' feature isn't very useful
Best for: Those looking for a great battery monitor with Bluetooth

What is the easiest battery monitor to install?

The SmartShunt is by far the easiest battery monitor to install. It doesn't have a screen, so all you have to do is mount the shunt, which can be done in 2 ways: Once mounted, you follow the instructions for connecting the SmartShunt to your system, which you do in the same way as any other battery monitor.

Do you need a Bluetooth battery monitor?

Having a Bluetooth battery monitor means you can monitor everything from your phone, so the screen can become superfluous. If you don't care much about a screen, then the obvious alternative is the Victron SmartShunt. You don't need Bluetooth. Most monitors don't have Bluetooth.
