

Best residential solar panels 2023

Which solar panels are best for your home?

SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer the best solar panels. The type of solar panel, power output, efficiency, performance in warm climates, warranty, and price are the key factors to assess when comparing solar panels. The best solar panel for your home can depend on your roof space, shading, and climate.

What are the best solar panels in 2024?

The Silfab Elite and Prime panels are sleek in design and perform well. Landing the number 2 spot on our 2024 list of best solar panels is Silfab Solar, a standout manufacturer offering an impressive 30-year performance and 25-year product warranty. These warranties exceed the industry's 25 and 12-year standards, respectively.

How do I choose the best solar panels for my home?

Choosing the best solar panels for your home is a game of balancing solar panel cost, function (like efficiency) and perhaps even aesthetics, if that's a variable that matters to you. Your choice is also limited by what solar equipment your chosen installer actually has available.

Who makes the best solar panels?

Panasonic: Panasonic, a leader in home electronics, is also a top name in the solar industry. Its solar panels and battery both made it on our "best of" lists because of their top quality and great performance. However, the company falls behind regarding U.S. investment and doesn't manufacture its own panels.

What are the best rooftop solar panels?

The best rooftop solar panels are efficient and have strong warranties. These are our favorite solar panels. The companies providing quotes may differ from those described in our independent reviews. REC and Maxeon offer two of the best solar panels CNET experts have evaluated.

How efficient are solar panels in 2021?

According to the Lawrence Berkeley National Laboratory's Tracking the Sun report, 2021 was the first year more than half the residential solar panels installed in the US had efficiency ratings above 20%. Ten years ago only 0.6% of those installed reached that mark.

Within those averages, you'll find solar panels with a range of efficiency ratings. It might not surprise you that you'll usually pay more for solar panels with greater efficiency. SunPower, one of the better-known solar panel brands, offers the most efficient and most expensive solar panels for homes at 22.8% efficiency.
