Office of Renewable Energy Programs . November 4, 2013 . Guidelines for Providing Benthic Habitat Survey Information for Renewable Energy Development on the Atlantic Outer Continental Shelf Pursuant to 30 CFR Part 585 . I. Introduction to Guidelines. Before the U.S. Department of the Interior, Bureau of Ocean Energy Management (BOEM)

Renewable Energy Program Regulations (30 CFR 585) History of Rulemaking; BOEM's renewable energy program occurs in four distinct phases: planning, leasing, site assessment, and construction and operations. BOEM engages key stakeholders throughout this process, as early communication with interested and potentially affected parties is critical ...

Bureau of Ocean Energy Management Office of Renewable Energy Programs OCS Study BOEM 2020-041 Comparison of Environmental Effects from Different Offshore Wind Turbine Foundations August 2020 Authors: Sarah Horwath, Jason Hassrick, Ralph Grismala, Elizabeth Diller Prepared under Contract 140M0118A0004 By ICF Incorporated, L.L.C. 9300 Lee Highway

In August of 2014, a team of researchers including BOEM's Office of Renewable Energy Programs and NOAA's Office of National Marine Sanctuaries discovered two significant vessels from World War II's Battle of the Atlantic. The German U-boat 576 and the tanker Bluefields were found approximately 30 miles off the coast of North Carolina.

The Bureau of Ocean Energy Management (BOEM) Director Abigail Ross Hopper has announced James F. (Jim) Bennett as BOEM's new Chief for the Office of Renewable Energy Programs (OREP) - the program responsible for overseeing offshore renewable energy development on the Outer Continental Shelf.

The Department of the Interior (DOI) Bureau of Ocean Energy Management's (BOEM) Office of Renewable Energy Programs (OREP) has prepared a Biological Assessment (BA) for data collection activities in wind energy areas on the Atlantic Outer Continental Shelf (OCS) . This BA

What's New? On May 15, 2024, the Bureau of Ocean Energy Management (BOEM) and the Bureau of Safety and Environmental Enforcement (BSEE) have finalized updated regulations for renewable energy development on the U.S. Outer Continental Shelf (OCS). The updated financial assurance regulations incorporate BOEM's experience with offshore oil and gas, simplify and ...

Renewable Energy. The FY 2025 Budget includes \$52 million for BOEM's Renewable Energy Program, which supports the Biden-Harris administration's goals of deploying 30 gigawatts (GW) of offshore wind energy capacity by 2030 and 15 GW of floating offshore wind capacity by 2035. As a champion of the
