

Bose solo tv system review

Is the Bose solo a good TV?

Nevertheless, the Bose Solo (\$400 street) is a strong offering in the booming sound bar market. It utilizes a pedestal design where the TV sits directly on top, which reduces clutter and just plain looks better. The Solo plays to all of Bose's strengths, with a refined design, simple setup, and a fantastic remote.

Does the Bose solo 5 work against my TV?

Unfortunately the dimensions of the Bose Solo 5 work against it as soon as you start listening. The size of your TV will impact how much of a difference it's able to make though, and it is worth bearing in mind that a small TV is likely to benefit more from the Solo 5 than a larger one.

Is the Bose solo 5 a good home theater?

The Solo 5 has a compact design that is well-suited for minimalistic setups or smaller spaces. It presents an all-black exterior with a subtle Bose logo on the front, ensuring it blends seamlessly with most home theater environments.

Does the Bose solo have a sound adjustment feature?

The Bose Solo has no sound adjustment features, so you're stuck with the out-of-the-box sound quality. There are no bass or treble controls, nor is there a dialogue enhancement feature. That may irk tweekers, but it's clear that Bose thinks the simple approach is better for the majority of its buyers.

Is Bose solo a good sound bar?

Although its sonic talents are comparatively modest, the Bose Solo is an exceedingly handsome and easy-to-use sound bar. Bose basically created the "lifestyle" home audio category, so it's surprising the company has been slow to embrace sound bars. Nevertheless, the Bose Solo (\$400 street) is a strong offering in the booming sound bar market.

Is the Bose solo 15 a good TV remote?

Despite a rather chunky universal remote in the box, which you can program to work with all your kit, there are no settings to tweak - no EQs to play with or voice settings to choose. The only thing Bose has introduced is a bass dial. The Solo 15 is a sturdy, well-built unit that will hold TVs up to 50in and 34kg.

Across the industry, though there are numerous bars vying for the top spot, the Bose Solo Soundbar Series II holds its ground well due to its versatile design and smart appearance. It features acoustic improvements over the original Bose Solo TV sound system, and is compatible with larger TVs for a more enjoyable experience.

Bose solo tv system review

The Bose TV Speaker is a better 2.0 setup for dialogue and TV shows than the Bose Solo 5. The TV Speaker feels better built, and its sound profile is more neutral. The TV Speaker also has an HDMI ARC port. However, while the Solo 5 doesn't get as loud as the TV Speaker, it can reach max volume with less thumping and compression artifacts.
