It has been 121 years since the last administration, operations and maintenance facility was built in Cambria County. It was important to CamTran to remain in the City of Johnstown.

Renewable energy comes from unlimited, naturally replenished resources, such as the sun, tides, and wind. Renewable energy can be used for electricity generation, space and water heating and cooling, and transportation. Non-renewable energy, in contrast, comes from finite sources, such as coal, natural gas, and oil.
