

# Can i replace my rv battery with a lithium battery

Can you put lithium batteries on an RV?

You can install lithium batteries on any RV that accepts house batteries. They use the same connections that lead-acid batteries have. In addition, LiFePO<sub>4</sub> batteries for RVs have the exact dimensions as their lead-acid counterparts.

Should you upgrade your RV battery?

Granted, sealed lead-acid batteries like gel and AGM offer slight improvements. But the basic chemistry remains the same. For an RV battery upgrade, you may want to switch to a new chemistry type: lithium. When you think of lithium, you might think of phone batteries, or the kind with dangerous cobalt. But that's not what we're talking about here.

Should RVers switch to lithium batteries?

Switching to lithium batteries is a common upgrade for RVers. But is it as simple as dropping in a new battery? No, and we tell you why.

What type of battery does an RV use?

Most RVs use the Group 27 battery size, but some will use Group 24, Group 29, or others. Your house batteries should be labeled. If not, check your owner's manual, call your RV dealer or RV manufacturer. You can install lithium batteries on any RV that accepts house batteries. They use the same connections that lead-acid batteries have.

Can a house battery be used in an RV?

You can install lithium batteries for your house batteries, not your engine starting battery. Most RVs use the Group 27 battery size, but some will use Group 24, Group 29, or others. Your house batteries should be labeled. If not, check your owner's manual, call your RV dealer or RV manufacturer.

Do I need to Change my RV converter for lithium batteries?

You don't need to change your RV converter for lithium batteries if you have an RV built in the Modern Era. When Yet-Ming Chiang and his M.I.T. researchers discovered the LiFePO<sub>4</sub> compound in 2004, it didn't take long for the battery and adjacent industries to adapt their technologies to the new power storage advancement.

With Dakota Lithium you can use all of the power of the battery, meaning that a 100 Ah battery from Dakota Lithium is equal to 200 Ah in lead acid batteries. Dakota Lithium has an 11 year warranty. That means you can install your batteries once, instead of replacing heavy lead acid batteries every few years.

Dakota Lithium batteries are a drop in replacement for AGM, SLA, or traditional lead acid batteries. The most common size battery for RVs is the group 27 size 100Ah battery and the Dakota Lithium 100Ah battery is a
