AOG Energy

2 days ago· Energy challenges include investment in grid modernization, renewable energy, and

energy storage. These aspects are crucial for enhancing energy security and sustainability. Nonetheless, the Caribbean Development Bank (CDB) reports that annual investments in renewable energy capacity average USD 75 million.

? Exciting news! ?Registration is now open for the CARILEC Renewable Energy Community (CAREC) Conference & Exhibition this October to explore the future of sustainable energy in our region ...

Tracking Renewable Energy Readiness - Renewable Islands Index: Mr. David Ehrhardt. Castalia Advisors. 11:25 - 11:40: Summary and Q& A: Moderated by: Ms. Elizabeth Butler: Presentations: Regulatory Function in the Caribbean Context - Lessons and Experience: 11:40 - 12:40: Rationale, Benefits and Cost for Regulatory Function - the Caribbean ...

CARILEC has chosen this theme as it resonates with regional efforts for energy transition, decarbonization and energy security. Renewable energy expansion strategies, decentralized RE generation and grid flexibility have been undertaken towards the goals of security of supply, decarbonization and energy affordability.

The Caribbean power generation sector depends on approximately 97 % of its energy production on imported fossil fuels (CIA 2014; IEA 2013; Byer et al. 2009). This causes not only locally harmful emissions of particular matter and nitric oxides but also emissions of greenhouse gases causing global warming and climate change (IPCC 2014). One of the ...
