## Cctv camera system power supply

When powering cameras, it is recommended that you use 80 percent of the power supply's maximum capacity to avoid overload issues. Assume we have 16 cameras, each drawing 250 mA:  $16 \text{ cameras} \times 0.25 \text{ mA} = 4 \text{ Amps}$  When considering the 80% Rule:  $4 \text{ Amps} / 0.80 = 5 \text{ Amps}$  In order to meet the 80 percent rule, our power supply should have a maximum total power ...

In the realm of security camera systems, one often overlooked but crucial aspect is the power supply. The reliability of your surveillance hinges on a consistent power source. In this post, we'll explore the significance of reliable power, the various power supply options, and the importance of Uninterruptible Power Supplies (UPS) in ...
