How do I find a reputable solar installer in New Haven County?

By doing the legwork for you, EnergySage makes it easy to find reputable solar installation companies in New Haven County, CT. We've already vetted all of our installer partners, and keep a close watch over their performance to ensure their installations and customer satisfaction are up to the levels that you-and we-expect.

How much does solar cost in New Haven?

The average price of solar is about \$2.29 to \$3.43 per watt in New Haven, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Are solar panels a good investment in New Haven?

Installing solar panels in New Haven is a good investment for homeowners who care about the planet as they can lower their carbon footprint by an average of 40 pounds a year. Investing in solar panels has many other benefits beyond saving money.

Are solar incentives a good idea in New Haven?

Solar incentives and rebates can cut the cost of installing solar in New Haven by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
