&quot;With the battery sitting at 0v, even a Lithium charger will not charge it back up because it won't be able to &quot;read&quot; it. You may be able to hook a second battery up with it on a Lithium charger and fool it into seeing the voltage and thereby starting the charging process. Once it begins, you can disconnect the second battery.

New question for vortec our fleet bikes the standard bike master battery only good 1 year.Your Lithium bike master battery,any I idea.How many years it may last.We have been Buying the OEM battery s,we get about 5/6 years out of them.We have a solar charger,I use on all bikes.When not in use.So I would want to try that battery in my 230.
