

Ctg power systems international

Who is CTG power solutions?

CTG Power Solutions LLC is a full service, turnkey mobile sales and rental power solutions company, wholly owned and operated as a subsidiary of CTG Power Systems Intl., LLC, a long-standing provider of high quality new, used and refurbished heavy power generation equipment and EPC services.

Who is CTG power systems international?

At CTG Power Systems International (CTG), we're passionate about building our Company brand based on integrity, proven performance and complete customer satisfaction. We were founded upon the mission of creating substantial customer value through our professionalism, 28 years of experience, commitment and innovative strategies.

Who is CTG engineering?

CTG Engineering provides feasibility assessments, design and consulting engineering services for all of your mobile power generation needs. Working with our project installation teams, construction and project management partners, our customers are assured of capable installation focusing on safety, cost, quality and schedule.

Caterpillar XQ2000 Diesel Generator Sets. With 3516B Engines. Meticulously maintained by certified CAT Dealer. Year - 2009 Full CAT service history available on request. All the sets have been serviced, CSC plated, load tested and cleaned. They are now running at 50 cycles. All the exhausts have been removed and put in 40ft containers ready for shipping. Please contact ...
