

What is a cultivation system?

Most cultivation systems employ a tiered framework of distinct realms or stages, each signifying significant advancement and unlocking new abilities. These stages serve as both milestones and motivators on the path to ultimate power. Cultivation employs a diverse array of methods to refine energy and propel progress.

Is cultivation a power system?

Cultivation is often displayed as a power system with a large number of levels or "realms," that often heavily invokes the trope "always someone better." Despite claims of mental improvement, this aspect is very rarely realized in stories, with most methods seemingly being devoted solely to increasing power and survivability.

Where can I find a cultivation system for magic?

If you are in fantasy and want to add a cultivation system for magic, I suggest you to read "Warlock of the Magus world"; There are several easy to understand cultivation systems and paths of power that can help you to understand and develop a system of your own.

What is the power system?

The power system is cultivation but it's unique in the way that they cultivate through fishing and then there are different branches of occupations they can take and they get sea creature beast soul kind of thing after reaching some certain point. But it has normal cultivation elements such as techniques and stuff.

What's the difference between a soft magic system and a cultivation system?

A soft magic system might just allow the character to do what they want without any systemic explanation, while cultivation techniques usually come with a host of requirements, levels, and specific powers. Really, I'm just sort of jaded with European magic settings, as I found Irregular at Magic High School to be an acceptable power system.

What can a cultivator do?

Cultivators may develop sophisticated illusions, mind control abilities, powerful summoning spells, the manipulation of various elements, and even the mastery of alchemical processes.

The Weirkey Chronicles has a very detailed and intuitive cultivation system. Very non-standard cultivation, mind -- it's based around "soul homes", which are quite literally buildings you construct inside your soul -- but it's still a wholly internal system with distinct tiers and large power gaps so imo it counts.

You've just smashed the Cradle cultivation system together with the Er Gen cultivation system, and added elemental complexities (a la Painting the Mists) There's nothing necessarily wrong with that, but you seem to have a system intended for a specific individual or group, rather than one that an entire world uses.

I have a story with a System that is kind of sort of like a cultivation novel (in fact, it may eventually evolve into one). I basically took the concepts from a few my wife listened to with "power tiers" (seven tiers, each with nine levels; the levels essentially are a percentage rating with all but the highest capped at level 9 before "flipping" to the next) - only applying them to Skills ...

Shadow Slave if you want a cultivation-ish system with essence and artifacts and cosmic horrors beyond human comprehension. Good fights, magnificent characterization, supreme worldbuilding.
