Highly rated by customers for: Battery backup, Surge protection, Price. \$64.99 Your price for this item is \$64.99. Sold Out. Page Showing 1 of 1 question. Ask a Question. Q: Question My CyberPower 625VA: CP625HG is not working at all. Can I put a replacement battery in it? I do not have a replacement battery cover. Or can I bring it in to be ...

I like the CyberPower - 625VA Battery Back-Up System as compared to other battery back-up systems I have used in the past. The unit does not always feel warm to the touch (24/7); from what I read the CyberPower unit maintains a trickle charge on the battery and quickly switches over to full battery power when needed; where other battery backup units feed power through ...

The CyberPower AVR Series CPS625AVR UPS provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, and personal electronics. The CPS625AVR uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations without switching to battery power, which extends battery life. AVR is essential in areas where ...
