Who is Elum energy?

Elum Energy is an energy & automation company providing ePowerControl technology : an Energy Management Systems (EMS) for renewable energy, storage, generators and other distributed resources. The controller is turn-key, simple to commission, compatible with major equipment brands on the market and made for complex electrical systems.

Who is investing in Elum energy?

PARIS, Sept. 10, 2024 /PRNewswire/-- Elum Energy, a leading provider of advanced energy management solutions for renewable energy systems, has secured \$13 million in Series B funding led by Energize Capital, with participation from existing investors Alter Equity and Cota Capital.

Why should you choose Elum energy?

Maximize PV penetration with robust and easy to install C&I solar solutions by Elum Energy. Ensure the reliability of your PV + genset system. Ensure efficient grid feed-in management and avoid penalties from operators. Gain valuable insights from your energy data with our solar datalogger. Control and supervise EV charging stations including BESS.

Who is Elum technologies?

Elum Technologies is an early-stage medical device company focused on disruptive technologies to address endovascular diseases.
