

Energy service partners solar

Who is energy service partners?

Energy Service Partners is a Yelp advertiser. 158 reviews and 180 photos of Energy Service Partners "The installation process was a learning experience for me as this was one new fairly big project to my house,but with the help of my project coordinator I was well aware of things that would take place.

Is ESP a reliable solar installer?

ESP has been one of the most reliable solar installerswe have ever worked with. They keep you in the loop and always keeps the customers happy. If there was ever an issue,they always fix it in a timely manner. Thank you ESP! They have done a fantastic job of ensuring everything with our solar installation and solar payments goes smoothly.

Does energy service partners employ salespeople?

Energy Service Partners does not directly employ any salespeople,we have a network of independent authorized dealers and we do expect them to conduct themselves according to high standards. The contract specifically recommends consulting a tax professional regarding the credit.

Does energy service partners take customer service seriously?

Energy Service Partners (ESP) takes customer experience very seriouslyand addresses issues promptly. The customer service manager connected with the concerned customer this week and it sounds like a satisfactory resolution was reached.

Should you consider Energy Solar Partners (ESP) for your solar installation?

If you are considering Energy Solar Partners (ESP) for your solar install....think again!1. The sales representative lied to us about our monthly solar cost and our monthly PGE bills. Our solar was supposed to cost \$80 a month...not \$116. We were told we would never have to pay more than \$10 a month PGE and a lot of times PGE would owe us money.

Are you still at ESP Energy Solar Partners?

Even after you get caught...you are still at it! Update...We are still having the same issues with ESP Energy Solar Partners. without resolution in over one year. We filed a complaint with the Calif. State License Board, the FTC, BBB, and State Attorney General.

Solar panels often outlast the shingles that they cover, by many years! If you didn't replace your roof at the same time as the solar, you'll need a professional to unplug everything while the roofer does their part. A solar installation expert must be the one to remove the solar, in order to maintain manufacturer warranties.
