

Founded in 2021, Guangdong Longwei New Electric Technology Co., Ltd., with a registered capital of 50 million, is a technology-oriented enterprise in Zhongshan, Guangdong, focusing on power space optimization, digital intelligent operation and maintenance, energy saving and environmental protection of power energy overall solutions.

Enjoypowers focuses on power electronics technology, is the largest power quality manufacturer in China, and provides customized energy storage PCS solution and products, to increase productivity, reduce carbon footprint, and save money at the same time.

Aelio series is a highly integrated, all-in-one, C& I Hybrid energy storage cabinet with multiple application scenarios. It has outstanding advantages such as intelligent charge and discharge management, safety and reliability, and simple operation and maintenance. First of all, Aelio cabinet uses high-density, high-safety, and high-performance ...

Compared to traditional lead-acid batteries used as backup power solutions, energy storage integrated cabinets offer higher system integration, greater safety at all times, and improved charge and discharge efficiency...

Wincle is a professional supplier of energy storage integration solutions for the construction of clean and efficient energy systems based on the energy storage application technologies.

The SolaX I& C energy storage cabinet, designed for large-scale commercial and industrial projects, integrates LFP cells with a capacity of up to 215kWh per cabinet, an Energy Management System (EMS), and PCS. It offers high efficiency, safety, and intelligent control, with advanced EMS for real-time monitoring, autonomous scheduling, and ...

YouNatural can meet the needs of different customers for customized solar energy storage systems, industrial energy storage systems, and commercial energy storage systems, and provide full-scene, full-range and full-category services.

Based in China, Shenzhen Sinostorage Energy Co., Ltd is a specialist manufacturer of battery energy storage systems and back-up power solutions for various commercial, industrial, and residential scenarios. With years of field experience, professional R& D team, reliable quality, and effective supply chain management, we are capable of ...

****High-Efficiency Energy Utilization****: Incorporating a built-in, high-quality, and long-life energy storage system that can store surplus electrical energy generated by photovoltaic power generation when it exceeds the actual electricity demand.
