

In an interview with Energy Connects, Dr Axel Wietfeld, CEO of Uniper Hydrogen said that collaboration in the hydrogen industry exists and is flourishing; however, there remains a long way to go to full transition into using this gas.

The Energy Council sat down with Francesco Mazzagatti, Chief Executive Officer at Viaro Energy and an expert speaker for the World Energy Capital Assembly 2023. ... Executive Interview: Amy Miller, CEO, Energy Council. Asia Pacific Energy Capital Assembly 2023: Key Takeaways. ... Energy Storage in Mexico. How to Win a Diversity & Inclusion ...

(Bloomberg) --The progress of China's energy transition is in focus as executives from some of the world's top power and renewables companies meet in Shanghai for the BNEF Summit, a major conference Monday and Tuesday. The nation's solar companies face an "incredibly challenging" 2024, and plunging module prices may squeeze out some players, ...

Powin Energy exhibiting at ees Europe / Intersolar in Munich earlier this month. Image: Solar Media. Geoff Brown, CEO of the world's fifth largest battery energy storage system (BESS) integrator Powin Energy, discusses the company's strategy for the coming years in an interview with Energy-Storage.news.. The Portland-based company had a 5% market ...

Chakratec's vision is to enable high penetration of renewable energy by providing economic and environmental electricity storage solutions. Chakratec was a Finalist for the 2019 ees AWARD. We talked to Mr. Ilan Ben-David, Chakratec's Co-founder & CEO. ees International: Thank you very much for this interview!

In 2023, Ron DiFelice and Edward May started a company called EIP Storage, a project development firm focused on stand-alone energy storage. We sat down with Ron to learn ...

HELLENiQ ENERGY CEO Andreas Shiamishis has been with the group for more than 20 years. Now, that expertise is proving invaluable as he readies the company for a global energy reset. ... he assumed responsibility for international business and expansion, leading to his appointment as Deputy CEO in 2014. ... "Unless you have storage, you have a ...

&#193;kos Kriston, CEO of Hungary's Gas Storage (MFGT) speaks about the company's decarbonisation's efforts, including the deployment of hydrogen technologies and the important role of gas storage in the future energy industry.

Circular Energy Storage Research and Consulting is a London-based consultancy specialized in life cycle

management of lithium-ion batteries. We help battery companies, car and device makers, utilities and recyclers to develop end-of-life strategies for lithium-ion batteries, and advise investors and the raw material industry on how the the end ...

Stryten Energy: Tim Vargo A CEO's Executive Interview. by Rica. May 8, 2022. in Energy and Power, Executive Series, Sustainability. 19 min read . 71. ... applying what we know how to do from an energy storage standpoint, getting the right IP to be able to develop that--this happened to be for a military application, so it's very usable and ...

Freyr CEO Tom Jensen. In January this year, Freyr signed an agreement to provide Honeywell with 19 GWh of battery cells from 2023 through 2030 for use in a variety of ...

Dr. Leonhard Ganzer is head of the Institute of Subsurface Energy Systems at Clausthal University of Technology in Germany focusing on underground hydrogen storage, CO2 injection, carbon capture and storage (CCS) or usage (CCU). He holds the chair of reservoir technologies and is experienced in leading roles of R& D projects...

This "storage-as-a-service" (STAAS) model is where his company believes "steep growth" will be found, the CEO says, "renting out energy storage space to big energy companies". "As we speak, we are talking to several energy companies and we are at this moment, adding it up to 300, even 400 megawatts of commitments we are getting ...

Interview with Andy Tang, VP of Energy Storage & Optimization at Wartsila What is it like to lead one of the world's largest energy storage integrators? Catherine spoke with Andrew Tang at W&#228;rtsil&#228; Energy, about this & how, as a first generation Chinese immigrant, he opted to pursue a renewable energy career path over following... Read more

5 &#0183; 2024-11-08 18:06:30. FUZHOU, Nov. 8 (Xinhua) -- China is a leader in the global energy transition, according to Raul Alfaro-Pelico, director of the Knowledge, Policy, and ...

Energy Vault Co-Founder and CEO, Robert Piconi, talks to CNBC about the future and scalability of Energy Vault's energy storage solution globally. Our CEO discusses how Energy Vault...

In a recent interview for Energy-Storage.news, the now former ESA CEO said that the association expected to see at least 3.6GW of storage installed during 2021, and ESA published "Vision 2030" a while ago, citing that the deployment of at least 100GW of energy storage on the grid is both desirable and achievable.

UK-based Gore Street ramps up overseas ESS expansion ... Alex O'Cinneide, CEO of Gore Street Capital, the company's investment manager, said the Texas purchase "presents a new high-quality counterparty, ERCOT, for our services within a significant market managing the flow of electric power to more than 26 million Texan customers ...

In an interview for Energy-Storage.news in late November, US national Energy Storage Association (ESA) CEO Kelly Speakes-Backman said that 2021 will be an "important year for energy storage" and that the industry will continue to grow at an accelerated rate - with at least 3.6GW of storage expected to come online.

Startup company PowerX is tackling critical global challenges by focusing on energy storage, advanced battery systems, and battery tankers. These innovations are vital for Japan's energy security, especially as the country strives to meet carbon neutrality goals by 2050. PowerX is gaining attention for its unique solutions, including large ...

Not surprisingly so, given the rapid rise of energy storage south of the border has put the US into a leading position among global markets. California recently surpassed 5GW of battery energy storage system (BESS) resources on the CAISO grid, the country as a whole deployed about 4GW/12GWh in 2022 according to Wood Mackenzie Power & Renewables, ...

Amsterdam, June 20, 2023 - AYK Energy, a leading provider of innovative marine energy storage solutions, is thrilled to announce its participation in the highly anticipated Electric and Hybrid Marine Expo, taking place in Amsterdam from June 20 to June 22 at booth number 6020.

In January this year, Freyr signed an agreement to provide Honeywell with 19 GWh of battery cells from 2023 through 2030 for use in a variety of energy storage systems applications. Deliveries will initially be made from the company's first Gigafactory in Norway, but as demand ramps, other Freyr Gigafactories in the US and other countries may also get involved.

UK Clients Visited Vilion-Vilion (Shenzhen) New Energy Technology Co., Ltd.-On August 16, 2023, Mr. Yao and his team from a UK intelligent energy service company visited Vilion. Accompanied by Mr. Shawn, CEO of Vilion, Mr. Andy, the chief engineer and Mr. Miles, the director of overseas marketing center of Vilion, Mr. Yao and his team visited Vilion's intelligent ...

In the first part of this interview with Swell Energy CEO Suleman Khan we heard about how Swell Energy has been working to "productise" the virtual power plant proposition: making it attractive to utilities and to their end-customers and then wrapping that into a long-term agreement. This time out, we speak to Suleman about some of the finer details of the VPP ...

What is it like to lead one of the world's largest energy storage integrators? Catherine spoke with Andrew Tang at W&#228;rtsil&#228; Energy, about this & how, as a first generation Chinese immigrant, ...

He completed the expansion of NextEra from its Florida-based utility business into an international clean energy player with about 45,900MW of generating capacity, revenues of over \$19.2 billion in 2019, and about 14,800 employees throughout the U.S. and Canada. ... In an interview (Forbes), John had stated that the future goal will be to ...

Renewable energy developer Serentica Renewables has invited expressions of interest (EoI) to set up interstate transmission system-connected Battery Energy Storage Systems (BESS) to supply 800 MWh of battery capacity to Serentica's round-the-clock projects.. The company said it is seeking technical partners to supply BESS capable of delivering reliable ...

In our latest interview, Marit Brommer, CEO of the International Geothermal Association highlights the growing global push for geothermal energy. ... Marit Brommer, CEO of the International Geothermal Association highlights the growing global push for geothermal energy. ... Romania advances energy transition with major battery storage and solar ...

The CEO of LG Energy Solution Vertech, Jaehong Park, speaks to Energy-Storage.news Premium for an exclusive interview. When LG Energy Solution, the energy storage arm of South Korean conglomerate LG's battery business acquired NEC Energy Solutions (NEC ES) in 2022, all industry eyes were on what would come next.

INTERVIEW | Efficiency "relevant but not key" when it comes to green hydrogen for long-duration energy storage. Hydrogen will be a necessary part of the future power mix, ...

An Executive Interview with Steve Edwards, CEO, Tailwind Energy ... CEO, Tailwind Energy and Jack Ingram, VP Corporate Development, Energy Council. Talk us through this year at Tailwind - the sale of Conwy to Eni, acquisition of Decipher Energy and BP's interests in Shearwater and the Evelyn development well being completed - it seems ...
