

What is a storage heater?

Storage heaters mean you can take advantage of lower off-peak electricity rates to heat your home. They are part of an electric heating systemand you'll need a time-of-use tariff (such as Economy 7 or Economy 10) to access cheaper electricity prices.

Which electric storage heaters are best for Economy 7 tariffs?

The selection of electric storage heaters offered by Heater Shop comes from a variety of reputable manufacturers. As a result of their ability to make effective use of cheaper electricity rates, heaters of this type are ideal for use with economy 7 tariffs. Our inventory features well-known brands such as Dimplex, Elnur, Stiebel Eltron, and Creda.

Are Elnur storage heaters a good choice?

Here at UK Energy Support, we install modern storage heaters from Elnur as we believe these are the best around. They come with plenty of features that can help you heat your home with minimum effort and save you money on your electricity bills simultaneously. Using the Elnur Gabarron HHR as an example, these features include:

Do storage heaters use off-peak electricity?

Modern storage heaters use off-peak electricitywhich is provided overnight when electricity demands are lower. This 'off-peak' period is supplied at a cheaper price than standard rate electric tariffs and also helps balance the demand for electricity throughout the day.

How much electricity does a storage heater use?

Small electric storage heaters typically consume about 1kWof power when charging heat, while larger ones can draw closer to 3kW. Although that's a lot of electricity, remember that is the maximum amount of power it will consume, so the minimum energy efficiency rating is much better.

What are the best electric heaters?

The best electric heaters help stave off the autumn or winter chill by providing a quick burst of concentrated warmth wherever you need it in your home. We've tested electric heaters from Argos, DeLonghi, Dimplex, Dyson, Russell Hobbs and more, including electric wall heaters, fan heaters, oil heaters and convectors.
