

The EnergyWeek event location is at the Vaasa city hall on Senaatinkatu 1. The annual EnergyWeek gathers energy enthusiasts from all over the world to share information, hear about the latest news and most interesting cases, extend their networks and do business.

Completed in 2013 in China. Images by Courtesy of ZHUBO DESIGN. Urban planning exhibition halls in China should be public buildings for citizens, but in reality, these buildings are largely used ...

The "electricity shortage" in Vietnam in the first half of 2023 has made the domestic energy shortage problem increasingly severe Energy transformation is urgent, and the demand for new energy generation and storage has gradually become the "main force" of Vietnam's energy structure In May 2023, the Vietnamese government officially approved the ...

The overall design plan of the park introduces the design concept of "intensive, green and environmental protection" energy-saving redesign, and builds core infrastructure covering technology research and development center, data center, intelligent enterprise exhibition hall, science and technology innovation center, production test center ...

This exhibition has become an important platform for technology exchange, information communication, and trade cooperation in the photovoltaic energy storage industry. The 2024 China (Qingdao) International Solar Photovoltaic and Energy Storage Exhibition will be held from September 26 to 28, 2024 at the Qingdao International Expo Center.

The "SNEC ES+ 9th (2024) International Energy Storage & Battery Technology and Equipment Conference" is themed "Building a New Energy Storage Industry Chain to Empower the New Generation of Power Systems and Smart Grids".

An open exhibit hall will be set up for different visitor groups. 3D multimedia broadcast videos will generate an immersive experience and foster a better understanding of the company's business: from the computerization of energy, to the digitization of energy, to the empowerment of life, the city, and industrial services.

2024 Shanghai International New Energy Storage Industry Expo. ... Domestic enterprise 19800.00/Extension period (RMB) 3mX3m B: Foreign enterprise 4800.00/extension period (USD) 3mX3m ... Qingpu District, Shanghai (North Gate of Exhibition Hall) Leading cultural and office supplies trading platform in the Asia Pacific region (Shanghai Cultural Fair)

After optimizing the configuration of each exhibition area, the exhibition hall makes full use of the entire space in an optimal manner. The use of high-tech design means, including digital multimedia display and modern visual effects such as sound, light, electricity, etc., allows visitors to enjoy and share the corporate culture in attendance as an interactive experience.

SuperStar (Shenzhen) Automation Co., Ltd., founded on June 26, 2018, is a national high-tech enterprise engaged in the research and development and sales of lithium battery intelligent manufacturing equipment, a specialized, special and new enterprise in Guangdong Province, and one of the top 100 enterprises in Guangming District of Shenzhen. Since its establishment, the ...

The 14th Shanghai International Energy Storage Lithium Battery and Power Battery Conference and Exhibition 2025 will be held at the Shanghai New International Expo Center from August 13-15, 2025. This exhibition aims to accelerate the development of the new energy vehicle industry and the power battery industry.

The exhibition design is inspired by the energy conduction of copper foil, and the "infinite loop" of energy is used as the concept of exhibition planning and space design. Loop flow line The exhibition hall was divided into two areas: Hailiang Excellence and New Materials for Benchmarking. The first exhibition area starts with the visual ...

Showcase your Products, Meet Decision Makers & Secure Deals. Join the world's leading energy storage companies at the World Energy Storage 2023 Exhibition, the platform showcasing the ...

Exhibition Hall. Introduction How to Reach. Concurrent Events ... 2025 Shanghai International Charging Pile and Battery Swapping Station and Photovoltaics Energy Storage Technology Exhibition will be held in Shanghai New ... a large-scale exchange platform integrating park and enterprise image display, equipment display and procurement ...

The 16th International Solar Photovoltaic and Smart Energy (Shanghai) Conference and Exhibition, SNEC 2023, was held in Shanghai from May 23rd to 26th. After a two-year hiatus, SNEC returned with a record-breaking attendance of over 500,000 registrations, making it the most influential internatio...

The exhibition hall covers more than 70,000 m², attracting more than 100,000 industry professionals to participate. On April 7, 2023, the 11th "Energy Storage International Summit and Exhibition 2023 (ESIE 2023)" was held in Beijing. The exhibition hall covers over 70,000 m², attracting more than 100,000 industry professionals to participate.

Shanghai Yicai Exhibition Services Co., Ltd. ranks sixth in recommended booth design and construction for the CIIE exhibition, first in recommended booth design and construction for the Hainan International Consumer Goods Expo exhibition, ranked among domestic and foreign exhibition booth design and construction companies, conference event planning companies, ...

This study aims to verify which the performance-based design was successfully applied in the construction of the main exhibition hall of the first Hebei Garden Expo, China. Based on the idea of "equality and connectivity" among humans, buildings, and the environment, the exhibition hall was designed using digital shape generation technology, and ...

Wu and his research team in recent years have been dedicated to the application of new energy in urban construction. The full-size exhibition hall, which is expected to be finished by the end of this year, will cover 500 square meters and display the knowledge of hydrogen energy and various applications of hydrogen in everyday life and production.

The exhibition hall design of the enterprise exhibition hall involves various types of digital technologies such as holographic projection, multi-touch, 3D cinema, and ring screen. In order to better highlight the corporate culture in the design process of the corporate exhibition hall, it is necessary to improve the grade of the exhibition ...
