

How many GWh of energy storage is needed in 2025?

To maintain grid stability, TERNA forecasts the need for 71GWh of storage, equivalent to about 20GW of capacity by 2030. The second edition of RENMAD Storage Italia (April 2-3, 2025) will bring together leading experts and industry leaders to discuss the evolving energy storage landscape, exploring both the opportunities and challenges ahead.

Does Italy need a long-duration energy storage system?

Local industry contacts and U.S. companies in the sector have indicated to CS Italy a need for long-duration energy-storage solutions. As of April 2023, Italy had more than 300,000 storage systems, with a total power of about 2,350 MW and a maximum capacity of about 4,000 MWh.

How many projects did EP Produzione win in the 2025 capacity market auction?

EP Produzione was awarded a total of five projects in the 2025 capacity market auction, each with a 15-year off-take contract. To continue reading, please visit our ESS News website. This content is protected by copyright and may not be reused.

The results of Italy's main grid capacity market auction for 2025, published by Terna, show energy storage represented 51.1% of the 174 MW of new capacity assigned. ...

EP Produzione will build 170 MW of battery energy storage systems with a two-hour storage duration at two sites. One project will be located at the company's Fiume Santo ...

Learn about the upcoming Italian energy storage auctions, the capacity market auction and MACSE auction (battery and pumped hydro), as tools to incentivize storage investment; Unlock different investment opportunities by making your energy storage projects financially viable, with a focus on securing long-term funding

The new market rules will allow grid operator Terna to run large-scale energy storage auctions. Terna will now run a consultation with the industry on the proposed new auction system and the first auctions should take place in late 2023/early 2024, two developers interviewed for a special feature in PV Tech Power (Vol.35) (Premium access) recently told ...

EP Produzione will build 170 MW of battery energy storage systems with a two-hour storage duration at two sites. One project will be located at the company's Fiume Santo coal-fired power...

Italy to hold first MACSE energy storage capacity auctions in H1 2025. The World's Leading Energy Storage Event Series. Produced by: Unlike other storage conferences, proceeds from the event help to fund high quality journalism across our media titles.

Minister of the environment and energy security Gilberto Pichetto has signed a decree allowing Italy to proceed with its energy storage capacity auction, known as MACSE, in ...

The auction, which was for delivery of projects to begin operation in 2024, has been credited with kickstarting the Italian market for grid-scale energy storage s biggest winner was utility Enel, which won more than 90% of contracts up for grabs. Italy is set to become one of Europe"s most active markets, as profiled in a feature article for our quarterly journal PV Tech ...

Minister of the environment and energy security Gilberto Pichetto has signed a decree allowing Italy to proceed with its energy storage capacity auction, known as MACSE, in the first half of 2025. #

Energy storage hit another record year in 2022, adding 16 gigawatts/35 gigawatt-hours of capacity, up 68% from 2021. ... a trend that will remain until 2025, as high retail electricity prices and government incentive programs support household deployments. ... Germany, Italy, Greece, and Turkey leading additions. The Americas region represents ...

The sales will be facilitated by LevelTen Energy, an international renewable energy asset M& A platform. Image: LevelTen Energy. Developer Altea Green Power is selling 2GW of battery storage projects in Italy with expected ready-to-build (RTB) status in Q2 2025 - and responded to cautionary comments about large early-stage deals.

Italy preps energy storage auctions. The appropriate minister has signed into law a decree which will allow electricity transmission system operator (TSO) Terna to stage ...

The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025. A public consultation regarding the auction should be launched in the coming days, as details regarding the capacity sought and the total amount allocated for the auction have not yet been disclosed.

Global Summit on Renewable Energy - REN25 - which will be held in Venice, Italy from June 16-18, 2025 aims to bring together energy, environmental, and economic policy makers and analysts from across the world to identify and quantify the many benefits of energy efficiency and renewable energy to support the development and implementation ...

Italy preps energy storage auctions. The appropriate minister has signed into law a decree which will allow electricity transmission system operator (TSO) Terna to stage procurement...

Italy to hold first MACSE energy storage capacity auctions in H1 2025. October 18, 2024. Minister of the Environment and Energy Security Gilberto Pichetto has signed a decree allowing Italy to proceed with its energy storage capacity market auction, known as MACSE, in the first half of 2025.

From ESS News. The results of Italy's main grid capacity market auction for 2025, published by Terna, show that energy storage represented 51.1% of the 174 MW of new capacity assigned ...

The second edition of RENMAD Storage Italia (April 2-3, 2025) will bring together leading experts and industry leaders to discuss the evolving energy storage landscape, exploring both the opportunities and challenges ahead.

Italy to hold first MACSE energy storage capacity auctions in H1 2025. The World's Leading Energy Storage Event Series. Produced by: Unlike other storage conferences, proceeds from ...

Minister of the environment and energy security Gilberto Pichetto has signed a decree allowing Italy to proceed with its energy storage capacity auction, known as MACSE, in the first half of 2025. Pichetto signed the decree last week (11 October), saying: "Increasing our storage capacity is essential to achieve the objectives of the NECP ...

The results of Italy's main grid capacity market auction for 2025, published by Terna, show that energy storage represented 51.1% of the 174 MW of new capacity assigned.

The appropriate minister has signed into law a decree which will allow electricity transmission system operator (TSO) Terna to stage procurement exercises, possibly as early as the first half of 2025.

Battery energy storage systems in Italy: current regulation and investment opportunities ... It is uncertain whether capacity auctions will also be held for the year 2025. However, a new capacity ...

The UK's energy regulator, Ofgem, is set to design and deliver the first round of a cap-and-floor mechanism for LDES technology. Following a consultation period held at the start of the year, Ofgem will implement the proposed cap-and-floor mechanism. This mechanism aims to overcome the barriers to LDES deployment that exist today, the main one being a lack ...

La seconda edizione di RENMAD Storage Italia (2-3 aprile 2025) riunirà i principali esperti e leader del settore per dibattere sull'evoluzione del panorama dell'accumulo, esplorando le opportunità e le sfide future. Partecipa a questo incontro che vedrà la partecipazione di 300 esponenti che discuteranno le strategie per sviluppare ...

RENMAD EVENTS RENMAD Events began in 2020, initially focusing on renewable hydrogen and energy storage, which led to the creation of RENMAD Storage and RENMAD Hydrogen. This was followed by RENMAD LATAM, RENMAD Chile, and RENMAD USA, establishing its presence in the renewable energy sector. Over time, the number of RENMAD
