Adjustable 11 gears, more accurate welding and more stability welding. Automatic and manual mode adjustable, easy to operate. The welding pen is comfortable to use, the length of ...

Product Description. Product Features. The newly designed U.S. Solid USS-BSW00005 high-frequency inversion battery spot welder equips with the two super capacitors for energy storage and power supply for pulse welding. Unlike traditional AC transformer spot welders, it is more portable and it does not cause any interference to the electric circuit, eliminating tripping ...

We design and manufacture portable guns for spot welding and their accessories, which are used when welding things like automobile bodies and steel furniture, in accordance with the application. These are used by many customers including Japan's largest automobile manufacturers. We also supply their accessory electrodes.

The handheld laser gun offers laser welding, energy storage welding, laser cleaning, welding seam cleaning and laser cutting capabilities through an intelligent controller. It facilitates flexible processing, is compact and portable, and comes with low operating costs due to it requires no consumables. ... From precise spot welding to ...

This capacitor energy storage pulse spot welder delivers efficient and consistent welding, enhancing capacitor battery performance. 2 Welding Modes: Featuring the 73B welding pen, 73S handle-push welding arm, and dual AT/MT welding modes, this welding equipment handles various tasks with ease. The AT mode is perfect for quick, large-scale ...

long-term operation, which ensures the consistency of the energy stored in the capacitor. This energy storage stud welding machine provides a reliable guarantee for the stability of welding quality. The input is a single-phase 220v AC three-wire system, and the wide voltage input is flexible in application, easy to move and high welding efficiency.

Pinnacle(TM) NCD+ 500b. High-performance battery-powered design delivers 1000's of welds from a single charge! Nelson's first stud welder powered exclusively by a rechargeable battery, the Pinnacle(TM) has the capacity to weld CD studs up to 3/16" diameter, including standard tip studs and Cupped Head Pins (CHP) for insulation.
