The extremely short weld time of the capacitor discharge process allows studs to be welded to material as thin

as .015 without burn-through. The unit is capable of welding mild steel, stainless steel, and aluminum studs, ranging from 14ga through 1/4" diameter. CD-312: The CD-312 is a state-of-the-art solid-state capacitor discharge stud/pin ...

We are a stud welding manufacturer, mainly producing CD and Drawn Arc stud welder, Stud gun, welding stud, ceramic ferrule, shear connector, chuck, shoes and other stud welding accessories. We had more than 20 years work experience. We are one of the reasonable & famous stud welding factory in China.

Nelson & Studs & Equipment. Nelson & offers a complete line of portable and feed stud welding systems to meet even the most demanding of stud welding performance requirements. Available for rent or purchase, we can custom-designed systems for a variety of end-use applications including fixed manual and automatic feed systems for high-production environments.
