Enersol Solar Products Inc's exclusive 18 Year Extended Warranty against defects in the solar collector panels, assures you many years of worry-free, low-maintenance pool heating. When compared to natural gas or heat pump warranties, our solar warranty provides long term coverage and ultimately, peace of mind.

Feel free to download the manual, specification or warranty information for our Enersol Solar Pool Heaters. Enersol Navigation. About Enersol Pool Heater. Enersol Solar Pool Heater; Considerations Before an Installation; Sizing Calculator ... How to replace an Enersol panel . Enersol Specification Sheets. Enersol Collector Specification Sheet ...

enerSol's state-of-the-art photovoltaic modules revolutionising the way we harness solar energy. Our specifically crafted modules deliver high performance, durability, and efficiency, making them the ideal choice for residential, commercial, water-pumping and off-grid applications.

Company profile for solar panel and Component manufacturer EnerSol Africa - showing the company's contact details and offerings. ... Solar Panels Solar Inverters Mounting Systems Charge Controllers Installation Accessories. Battery ...

The Mono-PERC range stands out with a larger watt capacity compared to other PV modules. It excels in low-light situations, such as cloud coverage and shade, thanks to its advanced light absorption capabilities. The advanced cell structure, featuring rear-side passivation layers and advanced front-side contact designs, minimizes energy loss and improves electron collection, ...

The Enersol Pool Heaters must be positioned vertically from eave to peak with at least 6 inches to 12 inches space around the panels for plumbing. When the panels are installed, they measure 12.5 inches from clip to clip approximately. This measurement is important to maximise your roof/rack area. For example: if your roof measures 26 feet wide and 10 feet high (as shown on ...

By connecting multiple solar panels in series, high-voltage systems allow for easy expansion and integration of additional panels as energy requirements grow - ideal for large solar energy systems that need to be off-grid. ... The enerSol high voltage series optimises solar-powered water pumping systems by offering an output range of 72V to ...

Enersol solar panels

Enersol Item Code: UPC-ESOL-110 Features Each box of Enersol panels includes one panel, the roof mounting hardware, and connection clip. One solar panel (1 ft. wide x 10 ft. long). One header strap (12 inch). One panel strap (48 inch). Three bolts. Two clips. Two o-rings.

High quality solar panels designed for rooftop and off-grid applications. 0/+5 WP Positive Tolerance. Rooftop and Off grid design. High Quality. General characteristics Cell: Polycrystalline solar cell 156 x 156 mm. No. of Cells (Connections): 60 (6x10). Panel Dimensions: 1480mm x 990mm x 35-40 mm. Weight: 10.5 kg.

Enersol's easy-to-install solar pool heating panels ensure warmer pool temperatures of up to 15°F -- with no heating bills. The panels are the most durable available and are put through ...

The 120W Solar Panel is recognised as a stable, established product that exceed their nominal power. 120W Solar Panel. The modules achieve or exceed their nominal power. The guarantee you get more than what you pay for! EnerSol SD Direct Pro is specifically designed for use in remote areas. 0/+5 Wp positive tolerance. High quality. Off-grid use ...

Get in touch with us today and discover the endless possibilities of distributing enerSol's products. Mozambique. Epsilon Energia Solar. Rua da Frente da Liberdade do
Mozambique, 355. Phone: +258 86 501 3122. Namibia. Iseli Namibia. 31002, 3 Voigts Street, Windhoek, Namibia. Phone: +264 81 382 3181.

Enersol 150 150W Solar Panel. High quality solar panels designed for rooftop and off-grid applications. 0/+5 WP Positive Tolerance. Rooftop and Off grid design. High Quality. 25-year linear performance warranty. 10-year product warranty.

The Enersol - Solar Monocrystalline Panels are part of the Mono Perc Series Solar Panels. They offer higher output power, lower resistive losses and less shading, making them an ideal choice for solar energy projects. The panels also have a lower levelized cost of energy (LCOE) and a better mechanical loading tolerance, making them suitable ...

20,89% MAX MODULE EFFICIENCY 5.54A MAX CURRENT POWER Due to its higher Watt Peak, the panels are up to 5% more efficient than other off-grid solar panels. High voltage solar off-grid systems minimise power losses during DC-to-AC conversion and transmission, leading to more efficient power distribution. The High Volta

For installation examples, view the Enersol Photo Gallery and the Enersol Video Gallery. More about Enersol: For more information about Enersol Pool Panels visit The Enersol Solar Pool Heater Advantage page. *Additional 2 Adapters and 2 Plugs are required per bank when splitting the system into two or more banks of panels.

Use this Sizing Calculator to help you determine the number of boxes of Enersol Pool Heaters needed for your

Enersol solar panels

installation. Panels are approximately 1 foot wide (12.5 inches from clip to clip approximately when the panels are installed) and they come in many lengths. The most common lengths are 8 feet, 10 feet, and 12 feet.

Sunny hours: Whenever the sun offers enough energy for effective heating during the day, the AquaSolar controller opens a motorized valve (3-way valve) and sends filtered water to your Enersol Pool Heaters.. The Enersol Pool Heaters are still able to draw heat from the roof after the sun has left the heaters. Thus, the solar control system will continue diverting the ...
