

When did Ericsson become a company?

Since the start in 1876, Ericsson had been active in making both phones and networks. In October 2001, Ericsson's cell phone division merged with the Japanese home electronics firm Sony and formed Sony Ericsson. The competition had become much tougher in the cell phone sector, and Ericsson could no longer rely solely on its own technical expertise.

What happened to Sony Ericsson?

In October 2001, Ericsson's cell phone division merged with the Japanese home electronics firm Sony and formed Sony Ericsson. The competition had become much tougher in the cell phone sector, and Ericsson could no longer rely solely on its own technical expertise. After NMT (1G) came GSM (2G), enabling even more widespread use of mobile telephony.

Where is Ericsson headquartered?

Telefonaktiebolaget LM Ericsson (publ) was founded in 1876 and is headquartered in Stockholm, Sweden. Shares of Ericsson (ERIC) have hit a two-year high after the company reported upbeat third quarter results and saw sales in North America grow 55% year over year.
