

Editor's note: This is the first installment of a three-part series on the FERC interconnection NOPR. Parts 2 and 3 will examine proposed reforms to interconnection studies and queue processing.

The Federal Energy Regulatory Commission (FERC or Commission) issued Order No. 2222 in 2020, with updates in 2021. ... products like smart thermostats that enable one to reduce power usage, energy efficiency measures, thermal energy storage systems such as ice storage, or electric vehicles and their charging equipment. Such DERs may be in your ...

November 2016 FERC issued a Notice of Proposed Rulemaking (NOPR) that included Electric Storage Resources and Distributed Energy Resource (DER) Aggregations ... distributed generation, demand response, energy efficiency, thermal storage, and electric vehicles and their supply equipment. -Definition is technology-neutral, thereby ensuring that ...

FEDERAL ENERGY REGULATORY COMMISSION 18 CFR Part 35 [Docket Nos. RM16-23-000; AD16-20-000; Order No. 841] ... FEDERAL ENERGY REGULATORY COMMISSION Electric Storage Participation in Markets Operated by ... 5 See NOPR, FERC Stats. & Regs. #182; 32,718 at P 2. 20180215-3100 FERC PDF (Unofficial) 02/15/2018 ...

The Federal Energy Regulatory Commission issued a Notice of Proposed Rulemaking (NOPR) for energy storage and distributed energy resources (DER) (RM16-23-000) last November that has attracted more ...

FERC's NOPR encourages energy storage, as more interconnection customers want to add energy storage to an interconnection request. The NOPR establishes that the transmission provider must evaluate such a request within 60 days to determine if the addition changes the maximum injection rights. If not, then the addition is not a material ...

PJM's take on NOPR. FERC directed the six U.S. regional system operators to draft reports on their progress with storage rules and DER aggregators in the respective marketplaces.

On April 21, the Federal Energy Regulatory Commission (FERC or Commission) released its Notice of Proposed Rulemaking (NOPR) to reform its policies regarding Regional Transmission Planning and Cost Allocation. The NOPR follows from an Advanced Notice of Proposed Rulemaking (ANOPR) on these reforms, which FERC issued in July 2021.

Final Rule to Eliminate Barriers to Electric Storage Resources On February 15th, the Federal Energy Regulatory Commission (FERC) issued a final rule to support electric storage resources (like lithium-ion batteries or pumped-storage hydroelectricity) and their continued growth in regional electricity markets. This

new rule directs all regional grid operators (RTOs/ISOs) to ...

ISO/RTO Energy Storage Market Modeling Working Group ... oFERC NOPR Docket RM16-23: Energy storage participation in wholesale markets oNOPR includes DER aggregations April-May 2016 oFERC Docket AD16-20: Requests information on energy storage participation in ...

The Storage Rule is the culmination of FERC's proceedings following the notice of proposed rulemaking issued in November 2016 (Storage NOPR) whereby FERC originally proposed enhancing the participation of electric storage resources in the organized capacity, energy, and ancillary service auction markets operated by Regional Transmission ...

The Commission issued a Notice of Proposed Rulemaking (NOPR) that would modify its Uniform System of Accounts (USofA) by creating new accounts for wind, solar and other non-hydro renewable assets, establishing a new functional class for energy storage accounts, codifying the accounting treatment for renewable energy credits and creating new ...

On June 29, FERC issued Order No. 898, a final rule that revises FERC's Uniform System of Accounts by adding functional detail concerning the accounting treatment of certain renewable and storage technologies, and creating new accounts for renewable energy credits, as well as certain hardware, software, and communication equipment.

FERC Federal Energy Regulatory Commission Mobile Menu Button. Search Search. Industries & Data. Electric. Overview; ... NOPR: March 19, 2020: FERC proposes to revise the Commission's transmission incentives policy and corresponding regulations implementing FPA section 219. ... Electric Storage Participation in Markets Operated by ...

Right to Sell QF Energy or Capacity to a Utility. QFs have the right to sell energy and capacity to a utility (see 18 C.F.R. § 304), provided the purchasing utility has not been relieved from its QF purchase obligation (see 18 C.F.R. § 309-311).With limited exceptions, QFs generally have the option of selling to a utility either at the utility's avoided cost or at a ...

The NOPR states that the current accounting treatment is impractical and imposes a significant burden as compared to creating a new, dedicated storage function. Additionally, the NOPR proposes to move the costs of pumped storage plant, which are currently recorded within the Hydraulic Production subfunction, to the new energy storage function ...

The Federal Energy Regulatory Commission (Commission) proposes to amend its regulations at 18 CFR 284.12 to incorporate by reference, with certain enumerated exceptions, the latest version (Version 4.0) of Standards for Business Practices of Interstate Natural Gas Pipelines adopted by the Wholesale Gas Quadrant (WGQ) of the North American ...
