

## Gallagher power fencing systems inc

One of New Zealand's longest-running pioneering business success stories, Gallagher Power Fence Systems Limited, has announced plans to expand operations in Kenya at Tatu City. Gallagher will build 24 warehouses on four-acres at Tatu Industrial Park, the leading industrial area with Special Economic Zone status in East Africa.

Since 1938, we've been helping farmers to harness the power to farm by delivering world-leading animal management solutions, that enable customers to operate responsibly, productively, and profitably. We lead the market in electric fencing, weighing and electronic identification (EID), data collection, and wireless water monitoring systems.

Safe, easy to install, made to last and economical compared to non-electric fences. Gallagher's electric fence systems offer a wide range of fencing options for all animal types, from lifestyles through to professional farmers. Select from the range of permanent, portable and offset retrofit fencing systems.

Gallagher Energizers deliver power and performance in all climates and geographic conditions. Selecting a larger Energizer than you need, results in better stock control and a larger safety factor if the fence or installation is imperfect (forage/vegetation interference, etc.)

The Gallagher story. When a horse called Joe decided to use the family car as a scratching post, it inspired Bill Gallagher Senior to solve the problem by devising an electrical circuit that delivered a small pulse whenever the horse rocked the vehicle. Joe got the message and the concept for the world's first ever electric fence system was born.
