

## Gmr solar power plant

Where is GMR solar power plant located?

GMR Energy set up its first solar power plant on March 4, 2012 at Charanka, Patan district in Gujarat. This 25 MW solar power plant uses crystalline solar photovoltaic modules ..... 600 MW (2X300 MW) operational coal based power plant located in Chandrapur, Maharashtra.

Who is GMR Energy?

GMR Energy leads India's energy transformation, covering the entire power sector. GMR Energy is a part of GMR Group, which is one of the largest diversified Infrastructure Conglomerates in India. With an operating capacity of over 3020 MW, it has a balanced fuel mix of coal, gas, LSHS as well as renewable sources of wind and solar energy.

What makes GMR Energy unique?

A balanced mix of power sales contracts in the short term, medium term and long term have given GMR Energy a unique strength in terms of portfolio diversity. An operating coal property in Indonesia provides essential requirement of fuel security.

How GMR Hyderabad Airport is going green?

Commenting on this green development, Mr. SGK Kishore, CEO, GHIAL said, "Hyderabad Airport, like other group companies of GMR, is committed towards generating renewable energy. As a part of this commitment, we have commissioned a 5 MW captive Solar Power Plant.

Which solar power plant uses crystalline solar photovoltaic module?

This 25 MW solar power plant uses crystalline solar photovoltaic module. It is a wind-based power plant with a gross capacity of 2.10 MW located in Moti Sindhodi Village, Kutchh District, Gujarat owned by wholly-owned subsidiary GMR Renewable ....

What is this new solar power plant at the airport?

This is a grid connected system for the captive use of the Airport. The green energy, thus produced by this 5 MW solar plant, is equivalent to meeting daily electricity requirement for about 4800 homes. The solar plant has also eliminated approx. 20 metric tonnes of carbon emissions every day (approx. 7100 metric tons in a year).
