

Will Guyana deploy 8 PV plants linked to storage?

The Guyanese authorities are seeking proposals to deploy eight PV plants linked to storage. The government of Guyana and the Inter-American Development Bank (IDB) have jointly launched a tender to deploy 33 MW/34 MWh of solar-plus-storage capacity. The Guyanese authorities said the tender will be divided into three lots.

What is Guyana's 'guysol' project?

With these finances earned by Guyana's first LCDS, a significant project on renewable energy is being implemented -- the Guyana Utility-Scale Solar Photovoltaic Programme (GUYSOL), which commenced in June 2022. This programme will help the nation migrate, in about three years, to a grid that uses 19 per cent renewable energy.

What resources are available in Guyana?

In Guyana, solar energy, wind and hydropower are good complementary resources. Solar energy is available during daylight hours, peaking at noon, while wind is stronger during evening hours and at nights. Wind is lower during the wet seasons, while hydropower is fully available.

Is hydropower a good alternative to solar energy in Guyana?

Hydro will also provide, in the long-term, a cheaper solution than any other technology, due to its long lifespan. In Guyana, solar energy, wind and hydropower are good complementary resources. Solar energy is available during daylight hours, peaking at noon, while wind is stronger during evening hours and at nights.

Does Guyana have electricity?

Guyana has some of the highest electricity rates in the region but power outages are frequent. Many manufacturers have opted to generate their own electricity. Most Guyanese live along the coast, where power is generated from old diesel plants that are mostly in need of upgrade or replacement.

Will Guyana's Power demand triple in the next 5 years?

Guyana's power demand is forecasted to triple in the next five years along with a booming economy. Proposed thermoelectrical and hydropower projects will serve people living along the coast, while solar power will meet the indigenous communities' demand.

What challenges have you experienced in Guyana as the country continues to develop? One of the problems that Guyana is facing right now is a shortage of labour. Many investors have entered the market to set up companies, creating a higher demand for all kinds of services. The main issue they are facing now is getting adequate talent.
