

Halo 1000 portable power station

The Halo 1000 Portable Power Stations pose a burn and fire hazard when the lithium-ion batteries overheat. A 79-year-old man from Florida died from smoke inhalation after the power station caught fire in his home in 2022, the CPSC said. Overall there have been four reports of fires involving the large battery pack.

The Consumer Product Safety Commission has recalled 5,740 portable power stations after the units reportedly sparked several fires, including one that resulted in the death of a 79-year-old Florida man. The CPSC said that the Halo 1000 Portable Power Stations were sold from October 2021 through March 2022 for between \$1,000 and \$1,300.
