

What are sanitary napkins?

Sanitary napkins, also known as pads or menstrual pads, are absorbent products worn by people who menstruate to catch menstrual blood. They consist of several layers of materials including an absorbent core, a moisture barrier and a backing layer.

How does a sanitary napkin work?

They consist of several layers of materials including an absorbent core, a moisture barrier and a backing layer. Some pads also come with wings that go around the sides of your underwear to help keep the pad in place. When you wear a sanitary napkin, menstrual blood is absorbed into the pad's core which can hold a significant amount of fluid.

Are sanitary napkins eco-friendly?

Another alternative is the use of organic and biodegradable sanitary napkins. Medzell, a futuristic B2B platform for promoting Indian medical devices in emerging markets, offers a range of sustainable and eco-friendly sanitary napkins made from organic cotton, bamboo, and other biodegradable materials.

How to prevent sanitary napkins from irritating your skin?

The best way to avoid it is to maintain good hygiene like changing your pad frequently and wearing cotton underwear. Prevent Skin Irritation from Sanitary Napkins: Sanitary napkins can cause skin irritation if kept for a long time. Symptoms of skin irritation are redness and itching.

Why do women need sanitary napkins?

These products help in reducing waste and also promote sustainable and environmentally responsible practices. Sanitary napkins are very important items for women during their menstrual cycle. However, one common issue that many women face is leakage. Leakage can be uncomfortable, embarrassing, and can potentially ruin clothing.

Do sanitary napkins have wings?

Wing design: Some women prefer pads with wings, which can help keep the pad in place and prevent leaks. However, others may find wings uncomfortable or bulky. Proper disposal of sanitary napkins is important for both hygiene and environmental reasons. Here are some tips for disposing of your pads properly.
