

Homeowner solar energy grants

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is a solar for all grant?

The Solar for All grants aim to speed up that shift, says David Widawsky, director of the EPA's Office of the Greenhouse Gas Reduction Fund, which manages the program. But it isn't just rooftop solar. Widawsky says the money will also go toward batteries that allow solar customers to store their energy.

What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

What is the Federal residential solar energy credit?

The federal residential solar energy credit is a tax credit that can be claimed on federal income taxes for a percentage of the cost of a solar PV system paid for by the taxpayer. (Other types of renewable energy are also eligible for similar credits but are beyond the scope of this guidance.)

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.

What is the Solar for all program?

The Solar for All program also advances President Biden's Justice40 Initiative, which set the goal that 40% of the overall benefits of certain federal climate, clean energy, affordable and sustainable housing, and other investments flow to disadvantaged communities that are marginalized by underinvestment and overburdened by pollution.

The Clean Energy Improvement Program (CEIP) is a new financing option for homeowners looking to leverage solar energy. The program offers competitive interest rates and repayment terms up to 25 years and is paid off through the property tax bill. Unlike other loans, the CEIP is tied to the property, not the owner.

Residential solar panel grants are specifically tailored to support homeowners interested in adopting solar energy. These grants can vary by state and locality, and they may target specific demographic groups, such as

Homeowner solar energy grants

low-income homeowners or communities in need of sustainable energy solutions.
